THE FUND

Name and Formation

Kensington Private Equity Fund (the “Fund”) is an investment trust established under the laws of the Province of Ontario pursuant to the Declaration of Trust, dated September 17, 2014 (the “Declaration of Trust”). The Fund is the successor to Kensington Global Private Equity Fund (the “Global Fund”), which was established in April 2007.

Kensington Capital Advisors Inc. (the “Manager”) is the Manager and Trustee of the Fund. The Fund’s principal place of business and registered office is located at 95 St. Clair Avenue West, Suite 905, Toronto, Ontario, M4V 1N6.

DESCRIPTION OF THE BUSINESS

Issue of Units

The Global Fund completed an initial public offering of class A units on April 20, 2007, and first issued class F units on February 1, 2008. On April 9, 2013, the Global Fund first issued class E units and class G units. On September 17, 2014, all of the class A units, class E units, class F units and class G units of the Global Fund were redeemed for class A units (“Class A Units”), class E units (“Class E Units”), class F units (“Class F Units”) and class G units (“Class G Units”) of the Fund following the transfer of the portfolio assets of the Global Fund to the Fund.

The Class A, Class E, Class F and Class G Units are collectively and interchangeably referred to herein as the “Units”. Holders of Units are collectively referred to herein as the “Unitholders”. Each of the classes of Units is convertible into each of the other classes of Units. As at March 31, 2016, the Investment Fund had 430,212 Class A Units, 55,658 Class F Units, 1,486,370 Class E Units and 2,584,013 Class G Units outstanding.

Investment Objective and Strategy

The Fund was created to provide exposure to a diversified portfolio of private equity investments, including private equity funds and direct investments in private companies. Private equity fund investments are typically not accessible to individual and smaller institutional investors because of high minimum investment thresholds or other restrictions that favour very large institution investors. The Manager believes that investing in private equity will continue to offer the potential for attractive long-term total returns which have historically outperformed public equity markets.

The Fund’s investment objective is to maximize long-term total returns for Unitholders through distributions of net income and net realized capital gains from private equity investments (“Underlying Investments”) identified by the Manager which will include private equity funds (“Underlying Funds”) and direct investments in private companies.

In order to achieve the investment objective, the Fund invests in select private equity funds and directly in private equity opportunities managed by experienced management teams or private equity fund managers that have strong track records. The Fund seeks to diversify by developing a portfolio of private equity fund investments including private equity

funds focused on a variety of industries and regions and at various stages of their business life cycle.

Investment Restrictions

The investment activities of the Fund are conducted in accordance with its investment objective and strategy. In addition, the Fund is subject to certain investment restrictions which, among other things, limit the securities and investments the Fund may acquire to comprise, or hold in, its portfolio. The Fund's investment restrictions may not be changed without the approval of the Unitholders by a two-thirds majority vote at a duly called Unitholder meeting ("Extraordinary Resolution") called for such purpose.

The Fund is subject to the following investment restrictions pursuant to which the Fund will not:

- (a) undertake any activity, take any action, omit to take any action or make or hold any investment that would result in the Fund failing to qualify as a "unit trust" for purposes of the *Income Tax Act* (Canada) (the "Tax Act"). Among other requirements, in order for the Fund to so qualify:
 - (i) at all times at least 80% of the property of the Fund must consist of a combination of: shares; property that under the terms or conditions of which or under an agreement, is convertible into, exchangeable for, or confers a right to acquire, shares; cash; bonds, debentures, mortgages, hypothecary claims, notes and other similar obligations; marketable securities; real property situated in Canada and interests in real property situated in Canada; or rights to and interests in any rental or royalty computed by reference to the amount or value of production from a natural accumulation of petroleum or natural gas in Canada, from an oil or gas well in Canada or from a mineral resource in Canada;
 - (ii) not less than 95% of the Fund's income for each year must be derived from, or from the disposition of, investments described in (i) above; and
 - (iii) at no time may more than 10% of the Fund's property consist of bonds, securities or shares in the capital stock of any one corporation or debtor other than Her Majesty in Right of Canada or a province or a Canadian municipality;
- (b) invest in securities of an issuer that is a foreign affiliate of the Fund;
- (c) make any investments which are not Underlying Investments or Liquid Investments ("Liquid Investments" is defined as financial products such as cash and cash equivalents, government securities, money market instruments and investment grade securities (other than asset backed commercial paper), as well as listed securities of private equity funds and other securities consistent with the overall objectives of liquidity, capital preservation and an appropriate return); or
- (d) purchase or sell derivative instruments, except as set out under "Use of Derivative Instruments" below.

Use of Derivative Instruments

The Fund may engage in currency hedging to mitigate the risk of exchange rate fluctuations where the Fund has purchased or invested or committed to purchase or invest in an Underlying Investment denominated in a foreign currency, to the extent that such activities are not inconsistent with any of the foregoing investment restrictions. The Fund may also enter into derivative contracts intended to provide exposure to specified private equity investments (which contracts will be classified as Underlying Investments) or other permitted Liquid Investments, consistent with the investment restrictions, overall objective and strategy of the Fund, in cases where an investment directly in such private equity investments or Liquid Investments is not practical.

Foreign Exchange

Foreign exchange gains or losses arise in the Fund from investments made outside of Canada, including Liquid Investments. When the Fund makes commitments to Underlying Investments in private equity which are denominated in currencies other than Canadian Dollars, the Fund may acquire Liquid Investments in those same currencies to ensure its ability to fully fund those commitments over time. The Fund has previously invested in Liquid Investments denominated in U.S. Dollars and in Euros, leading to foreign exchange losses from the rising Canadian Dollar. The Manager expects that changes in the currency markets will continue, and takes a prudent approach to foreign exchange risk in an attempt to match capital with anticipated obligations. The Fund does not make any speculative currency investments in the foreign exchange market.

Borrowing

The Fund may borrow an amount up to 25% of its total assets in order to provide the liquidity required to take advantage of investment opportunities on a timely basis, to fund redemptions or repurchases of Units and for general operating purposes. The primary purpose of such borrowing is to optimize the investment efficiency of the Fund and permit the Fund to be as fully invested in Underlying Investments as possible, while retaining the flexibility to take advantage of investment opportunities that arise from time to time. The purpose of these borrowings is not to apply leverage to specific investments for equity return enhancement. The cost of any such borrowing will be borne by the Fund and the assets of the Fund may serve as collateral for such borrowing.

Eligibility for Investment

Provided that the Fund qualifies as a mutual fund trust within the meaning of the Tax Act at all relevant times, the Units will be qualified investments under the Tax Act for trusts governed by registered retirement savings plans, registered retirement income funds, deferred profit sharing plans, registered disability saving plans, registered education savings plans and tax-free savings accounts (“Registered Plans”). During 2015, the Fund did not deviate from the rules under the Tax Act that apply to the status of the Units qualifying for inclusion in the Registered Plans.

Notwithstanding the foregoing, if Units are “prohibited investments” for the purpose of a tax-free savings account (a “TSFA”) (or if the Units are “prohibited investments” for the purposes of a registered retirement savings plan or registered retirement income fund), a holder of a TFSA (or an annuitant of a registered retirement savings plan or registered

retirement income fund) that governs a trust will be subject to penalty taxes as set out in the Tax Act. An investment in the Units will not generally be a “prohibited investment” unless the holder (or annuitant) does not deal at arm’s length with the Fund or has a significant interest (within the meaning of Tax Act) in the Fund. Unitholders should consult their own tax advisors to ensure that the Units would not be a prohibited investment in their particular circumstances.

MANAGEMENT OF THE FUND

The Manager and Trustee

Kensington Capital Advisors Inc. is the manager (the “Manager”) of the Fund. The Manager’s principal place of business and registered office is located at 95 St. Clair Avenue West, Suite 905, Toronto, Ontario, M4V 1N6. The Manager can be reached by at (416) 362-9000, or toll-free at (855) 362 9329 by e-mail to info@kcpl.ca or at its website www.kcpl.ca.

The Manager also serves as trustee (the “Trustee”) and administrator of the Fund pursuant to the Declaration of Trust and as such is responsible for the basic administrative services of the Fund. See “Declaration of Trust”.

As Manager, Kensington Capital Advisors Inc. provides investment advice and portfolio management services to the Fund in accordance with the Fund’s investment policies and procedures, and is ultimately responsible for making all investment decisions on behalf of the Fund. The Manager has responsibility for managing the investments of the Fund in accordance with the Fund’s cash management policy. Kensington Capital Advisors Inc. is a corporation governed by the laws of the Province of Ontario and is registered with the Ontario Securities Commission as an Fund manager, portfolio manager and as an exempt market dealer.

The Management Agreement

Pursuant to the Amended and Restated Management Agreement dated as of June 6, 2016 between the Manager and the Fund (the “Management Agreement”), the Manager provides or arranges for a wide range of administrative services and other business services to the Fund. The services provided by the Manager include researching, sourcing and conducting appropriate due diligence investigations on investment opportunities, ensuring compliance with the Fund’s investment objective, strategy, policies and procedures, and making decisions regarding investments in, and dispositions of, Underlying Investments.

The Manager is entitled to receive fees as compensation for management services rendered to the Fund. See “Fees and Other Expenses - Management Fee”.

The Manager is required to exercise its powers and discharge its duties under the Management Agreement honestly and in good faith, and in the best interests of the Fund and to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in similar circumstances.

The Management Agreement provides that the Manager may be removed for cause, with the approval of Unitholders by an Extraordinary Resolution at a duly constituted meeting of the Unitholders. “Cause” is defined in the Management Agreement to mean that the Manager has acted in a manner that constitutes gross negligence or wilful misconduct in the

execution of its duties under the Management Agreement or is convicted of fraud, embezzlement or a similar indictable criminal offence (in each case as finally determined by a court of competent jurisdiction following the exercise of all rights of appeal), or the Manager suffers a bankruptcy or insolvency event as specified in the Management Agreement.

Unless terminated in accordance with its terms, the Management Agreement will continue until the termination of the Fund. In the event of a breach or default of any material provision of the Management Agreement, which is not cured within 60 days of written notice of such breach to the Fund, the Manager may terminate the Management Agreement. In the event of such termination, no payments need be made by the Fund to the Manager, except for the amounts owing as of the date of termination, including prorated management fees and performance fees in respect of the part quarter and part year ending on the date of removal of the Manager or date of termination of the Management Agreement, as applicable.

Directors and Officers of the Manager

The name and municipality of residence of each of the directors and senior officers of the Manager are set out below. Their principal occupations are their respective positions with the Manager:

<u>Name and Municipality of Residence</u>	<u>Position with Manager</u>
Thomas Kennedy (Toronto, Ontario) ⁽¹⁾	Chair, Director and Managing Director
Richard (Rick) Nathan (Toronto, Ontario) ⁽²⁾	Director and Managing Director
Eamonn McConnell (Toronto, Ontario) ⁽³⁾	Director and Managing Director
John Walker (Oakville, Ontario) ⁽⁴⁾	Director and Managing Director
Suganya Tharmalingam (Toronto, Ontario) ⁽⁵⁾	Director, Managing Director and Chief Financial Officer
Jeffrey Pike (Toronto, Ontario) ⁽⁶⁾	Senior Vice-President
Peter Fink (Toronto, Ontario) ⁽⁷⁾	Senior Vice-President
Michelle Scarborough (Calgary, Alberta) ⁽⁸⁾	Senior Vice-President
Harold Huber (Calgary, Alberta) ⁽⁹⁾	Senior Vice-President
Martin Kent (Toronto, Ontario) ⁽¹⁰⁾	Senior Vice-President

As of March 31, 2016, the directors and senior officers of the Manager had the following holdings in the Fund and the Manager:

- ⁽¹⁾ Thomas Kennedy held approximately 0.5% of the Units of the Fund and 38.5% of the shares of the Manager.
- ⁽²⁾ Richard Nathan held approximately 31.7% of the shares of the Manager.
- ⁽³⁾ Eamonn McConnell held approximately 11.8% of the shares of the Manager.
- ⁽⁴⁾ John Walker held approximately 5.4% of the shares of the Manager.
- ⁽⁵⁾ Suganya Tharmalingam held approximately 0.02% of the Units of the Fund and 3.5% of the shares of the Manager.
- ⁽⁶⁾ Jeffrey Pike held approximately 0.14% of the Units of the Fund and 3.0% of the shares of the Manager.
- ⁽⁷⁾ Peter Fink held approximately 0.05% of the Units of the Fund and 2.2% of the shares of the Manager.
- ⁽⁸⁾ Michelle Scarborough held 0.04% shares of the Manager.
- ⁽⁹⁾ Harold Huber held 0.3% shares of the Manager.
- ⁽¹⁰⁾ Martin Kent held 0.2% shares of the Manager.

The following is a brief description of the background of the directors and senior officers of the Manager.

Thomas Kennedy: Mr. Kennedy is the founder of Kensington Capital Partners Limited and Chair of the Investment Committee. Tom serves on the Advisory Board of several private equity funds and on the Board of Directors of a number of private companies. He has investment banking experience as a senior executive with Bunting Warburg, Lancaster and TD Securities. He has served on the Board of the CVCA as well as several public companies. Tom holds a B.Sc.Eng. (Mining) from Queen's University and a D.B.A. from the University of Edinburgh, Scotland and is a professional engineer.

Richard Nathan: Rick is a Managing Director and a member of the Investment Committee and Advisory Board. He was the President and Chair of CVCA - Canada's Venture Capital and Private Equity Association from 2005 to 2012 and is the Co-Chair of the Canadian Innovation Exchange (CIX). Rick serves as a Board member or observer of D-Wave Systems Inc., Blue Ant Media Inc. and TouchBistro Inc., and is on the Advisory Board of the Novacap, Georgian, Vanedge and Walden funds. He is also a member of the Small and Medium Enterprise Committee (SMEC) established by the Ontario Securities Commission. Rick was previously a founding partner of Brightspark Ventures. L.P., a Toronto venture capital fund focused on incubating early stage technology companies, and the Managing Director of Goodmans Venture Group, a strategic advisory and investment division of Goodmans LLP. Rick also spent more than 10 years as a corporate and securities lawyer at Osler, Hoskin & Harcourt LLP, including as leader of the firm's Technology Business Group. Rick holds a B.A. (Computer Science) from Dartmouth College and an LL.B. from the University of Toronto, Faculty of Law.

Eamonn McConnell: Eamonn is a Managing Director and a member of the Investment Committee and is the Manager's advising representative. Eamonn is also an equity partner of Gryphus Capital, a private equity firm he co-founded in 2002 based in Singapore. He served as the Deputy Chairman of the Alternative Investment Management Association (AIMA) Canada from 2008 to 2013. For over 25 years, Eamonn has been involved in the investment banking and the fund management business in Canada, the U.K. and Asia working for many large international institutions including Barclays Global Investors, Deutsche Bank and Merrill Lynch. Eamonn's areas of activity have ranged from capital markets work in both debt and equity products, the establishment of a mutual fund investment management company and the subsequent launch of several funds, to the establishment of a private equity investment management company. Eamonn holds a B.A. (International Finance) from the American University in Paris, France; a Masters of Business Administration from McGill University, and a Diplome, from Ecoles des Hautes Etudes Commerciales, France, International Management Program. He also holds the Chartered Alternative Investment Analyst Association (CAIA) designation.

John H. Walker: John is a Managing Director and a member of the Investment Committee, with responsibility for the Kensington infrastructure business. He is Chairman of U.S. Geothermal Inc. [NYSE: HTM, TSX: GTH], an operating geothermal power company based in Boise, Idaho. John has an almost 40 year history in urban planning, energy security and power plant development in Ontario and internationally. John was a founding director of the Greater Toronto Airports Authority in 1992 and chaired the first Planning and Development Committee of that Board, which provided oversight in the construction of the \$4.4 billion terminal complex at Toronto Pearson Airport completed in 2004. Additionally, he was co-founder and a founding Director of the Borealis Infrastructure Fund in 1997 which is now

owned by the Ontario Municipal Employee Retirement System (OMERS). John has worked in the financial services industry as an investment banker with Loewen Ondaatje McCutcheon and has served on the Board of Directors of Sheridan College. His background includes 10 years at Ontario Hydro where he was responsible for alternative energy and international market development for Ontario Hydro International. John has also acted as a senior advisor to Falconbridge now Xtrata on the Koniambo project, a \$3 billion project in New Caledonia. He has also worked in infrastructure fund development for Aurion Capital and Integrated Private Debt. John is a Registered Professional Planner in the Province of Ontario and a member of the Canadian Institute of Planners. John has a BSc. from Springfield College and a Masters of Environmental Studies (Urban and Regional Planning) from York University.

Suganya Tharmalingam: Suganya Tharmalingam is a Managing Director & the Chief Financial Officer of the Manager and Trustee, responsible for finance functions including corporate and investment finance, enterprise reporting, tax and audit. Suganya joined the Manager in 2007 and has served as an active member of the finance and accounting group, as well as a principal on the investment team. Prior to joining the Manager, she spent several years at Deerfield Capital Management, a fixed income investment adviser based in Chicago, where she was responsible for all aspects of accounting and reporting. Suganya was previously an accountant with FreeBalance, an Ottawa based global provider of software solutions for public financial management. Suganya holds a B.Comm in the Specialist Program in Management and Economics from the University of Toronto. Suganya is a Certified Public Accountant (U.S.), Chartered Professional Accountant and Certified Valuation Analyst.

Jeffrey Pike: Jeffrey is a Senior Vice-President of the Manager, responsible for leading the sales, marketing and distribution development efforts. Jeffrey has been involved in the financial services industry for over 25 years, with extensive senior experience in the Mutual Fund and Brokerage sectors. He has led numerous product and business development initiatives covering mutual funds, wrap programs, retirement solutions and private label investment programs. Prior to joining the Manager, Jeffrey ran his own Asset Management consulting practice providing Financial Services clients with differentiated ideas in developing distribution for their offerings. Jeffrey was previously Managing Director of SEI Investments Canada for over 11 years, where he led their very successful launch to the Advisor community in Canada. Jeffrey holds a B.A. (English) from York University.

Peter Fink: Peter is a Senior Vice-President of the Manager. Peter has over 30 years of capital market and institutional investor experience. His previous experience includes 18 years at Citigroup where he led a number of initiatives with institutional investors, including as the head of pension fund relationships in North America. He subsequently worked at Russell Investments in Canada and the U.S. in senior relationship management and business development roles over a six year period. Most recently, he worked at FLAG Capital LLC and prior to that, Private Advisors LLC in senior business development roles. Peter has a B.Comm from the University of Toronto and a MBA from Columbia University.

Michelle Scarborough: Michelle is a Senior Vice-President of the Manager and leader of the Manager's Calgary Office. Michelle is an experienced Canadian venture capitalist, with a strong track record in the energy technology sector. A recognized leader in the investment community, Michelle is the Chair of the National Angel Capital Organization, the founder of the Women's Angel Network in Canada as well as an advisory member for Women in Energy and Private Equity. She also led the establishment of the Ontario Emerging Technologies Fund, and founded a number of start-ups giving her a deep understanding of the venture

capital ecosystem in Canada and the United States. Prior to joining the Manager, Michelle was a Founder and Managing Partner of Fronterra Ventures, an oil and gas technology venture fund. An experienced entrepreneur, Scarborough has also served as the Managing Director and Entrepreneur in Residence of the Regional Innovation Centre for Ottawa and Eastern Ontario where her team worked with over 400 high potential companies raising close to \$100 million for portfolio clients to support scalable global growth. Michelle holds a dual B.A. (Science and Communications) from the University of Calgary.

Harold Huber: Harold Huber is a Senior Vice-President and works out of the Manager's Calgary Office. He has more than 30 years of experience in the acquisition and development of energy and infrastructure projects in North America. Prior to joining Kensington Mr. Huber practiced corporate law with a focus on projects in the power, oil & gas, and pipeline sectors. He also has a strong background in regulatory law in matters involving the National Energy Board and numerous provincial regulatory agencies. Mr. Huber was previously a senior partner in the Infrastructure & Energy Group of Torys LLP a based in their Calgary office. Prior to that he was a senior partner in the energy group at McCarthy Tétrault LLP. Harold holds a LL.B from the University of Saskatchewan College of Law and a B.Admin from the University of Regina.

Martin Kent: Martin Kent is a Senior Vice-President with over 25 years of experience in a broad range of financial management activities. Most recently, Martin was the Chief Financial Officer of Protenergy Natural Foods Corp., a leading North American private label food manufacturer, in which the Fund was an investor. From 2009-2012 Martin was the CFO of Quantum Murray LP, a national industrial and environmental services company with \$200 million in revenues. From 2005 to 2008, Martin was a Managing Director at Newport Partners, an investment firm that provides wealth management services, capital and financial advisory services to help Canadian entrepreneurs realize their personal and corporate goals. Prior to Newport, Martin co-managed private equity funds for Oncap and EdgeStone, where his responsibilities included sourcing, structuring and managing investments in mid-market companies. From 1994 to 2000, he was a Managing Director in the Mergers & Acquisitions Group at RBC Dominion Securities. From 1987 to 1994, Martin held various investment banking positions with Morgan Stanley and J.P. Morgan in New York and Toronto. Martin began his career in with Clarkson Gordon, a predecessor of Ernst & Young, where he received his Chartered Accountant designation in 1984. He received a Master of Business Administration from Harvard University in 1987 and a Bachelor of Commerce degree from Queen's University in 1982.

Advisory Board

The Manager has appointed certain members of the Advisory Board to act as the Manager's Advisory Board (the "Advisory Board"). The Advisory Board has been established to provide strategic advice to the Manager and to provide advice to the Manager on real or potential conflicts of interest. The Advisory Board consists of the following members:

Sean Aylward: Sean Aylward is a Partner in the Toronto Tax Department of Osler Hoskin & Harcourt primarily focused on commodity taxation, customs and related cross-border matters. Sean co-owned and served as a Director of Riverfront Medical Services, at the time one of Canada's largest privately owned third party medical assessment companies. He is currently a Director of a privately held company that is involved in enterprises including specialty finance and lending, real estate, and developing and marketing products for the

sporting industry that will lead to early detection of concussion. Sean graduated with a B.A. from the University of Ottawa in 1982. He obtained his LL.B. from Osgoode Hall Law School in 1985 and his LL.M. from the London School of Economics in 1988. Sean is a member of the Law Society of Upper Canada, the Canadian Bar Association, the Canadian Tax Foundation and the International Fiscal Association.

Gregory Cochrane: Greg Cochrane is Managing Partner, VRG Capital Corp., a family office focused on private equity investments. He has over 30 years of private equity experience and has been a lead investor in several private and public companies. From 1981 to 1997 Greg and his partner built and managed one of the largest event and conference companies in Canada, Mariposa Communications. The company was sold to Mosaic Group, a publicly traded business in 1997. Greg then served as a Managing Partner with Mosaic Group until 2001. In 2001 he became a lead investor in Pareto Corporation, a start-up marketing services business which became a publicly traded entity in 2004. He served as a director until 2010, when the company was sold to a private equity firm. In 2012 he became a lead investor and Director of Wheels Group, a publicly traded third party logistics firm until 2015 when the company was sold to Radiant Logistics, a U.S. based publicly listed business. In 2015 Greg became a lead investor and Director of Jones Brown Insurance, one of Canada's largest Insurance Brokerages. Greg has been involved at operational and board levels in a number of businesses including Kensington Capital, Lise Watier Cosmetics, Future Bright Insurance Corp., Thistle Printing, MPH Printing and Capri Media Group. He is currently on the advisory boards for Clarus Securities and Lumira Capital. He is a founding donor of the Centre for Business Venturing at Queen's University and is a member of the Business School's Advisory Board. Greg is also the co-chair for "Capitalize 4 Kids," Canada's premier investment conference. He has served on boards for groups and associations such as Junior Achievement, The Down Syndrome Association of Toronto, The Canadian Business Hall of Fame, St. Josephs Health Centre, and several others. In 1992, Greg received Canada's 125th Commemorative Anniversary medal for volunteerism in the community. Greg has an M.B.A. from Queen's University, Kingston, Ontario, and a Degree in Business from Bishops University in Lennoxville, Quebec.

Kevin Crull: Kevin Crull is currently the Chief Marketing Officer at Sprint Corp. Prior to joining Sprint, Greg was the President of Bell Media Inc. at BCE, Inc. from 2011 to 2015, Chief Operating Officer of Bell Media Inc. from 2010 to 2011, and President of Residential Services of Bell Canada from 2005 to 2015 where he was responsible for wireline, high-speed Internet and video services. Previously, Kevin was Senior Vice-President of AT&T Consumer and Small Business from 2001 to 2004, and also served as Senior Vice-President & General Manager of its wireless business during 2004. Prior to his tenure at AT&T, he spent five years with US West as Senior Vice President of the Consumer Services Group and nine years with Nestle where he advanced from an entry level position to Division Vice President of Beverage Sales. Kevin holds a Master of Business Administration from the University of San Francisco as well as a Bachelor's degree in Marketing from Ohio State University, and has also completed leadership development programs at the Dale Carnegie and Aspen Institutes. Kevin serves on the Board of Bell Aliant Regional Communications Inc. as well as National Director of the Bell Walk for Kids Help Phone.

Dr. Sheldon Levy: Dr. Levy co-owned and served as the President and Medical Director of Riverfront Medical Services, at the time one of Canada's largest privately owned third party medical assessment companies. Sheldon remains a consultant to the new owners of the company. Sheldon practiced as a Clinical Associate in Cardiovascular Surgery at both Sunnybrook Health Sciences Centre and St. Michael's Hospital. Sheldon is currently a Director

of a privately held company that is involved in enterprises including specialty finance and lending, real estate, and developing and marketing products for the sporting industry that will lead to early detection of concussion. Sheldon graduated from the University of Western Ontario Medical School in 1991. Sheldon is a member of the Medical-Legal Society of Toronto, Canadian Society of Medical Evaluators, C-SAM (Canadian Society of Addiction Medicine), CMPA, CPSO and the OMA.

Rubin Osten: Ruby Osten is President and Chief Executive Officer of Raspberry Investments Corp., an investment and consulting firm. He is also a director and advisor to a number of private companies as well as a member of the Board of Governors of Mount Sinai Hospital in Toronto. Ruby is a Chartered Accountant and a member of the Institute of Chartered Accountants of Ontario. Ruby co-founded PC DOCS Group International Inc., formerly a TSX and NASDAQ-listed company, and served as its President and Chief Executive Officer until the company's sale in 1999. PC DOCS was a global software company and the leading provider of document management with revenues in excess of \$200 million and offices in 20 countries worldwide. Ruby was the Chairman and Chief Executive Officer of Cowboy Corp., a provider of customer relationship management software for the automotive industry from January 2000 until the company's sale in February 2003. Ruby was a director of Spectra Securities Software Inc., a provider of software to the financial services industry focused on wealth management from January 2000 until the Company's sale in July 2002. He was also a director and chair of the audit committees of the Movie Distribution Income Fund, an income trust (TSX) and of MediSolution Ltd. (TSX), a provider of information technology to the healthcare industry.

Dr. Gerri Sinclair: Gerri career includes more than 25 years' experience in mobile and digital media technologies, entrepreneurial business, and government policy. She was the founder and CEO of NCompass Labs, the Internet digital content management company acquired by Microsoft in 2001. She then joined the Microsoft Senior Executive team as Country Manager for Canada for MSN. A former IBM Consulting Scholar as well as a Visiting Scientist at IBM Research in New York, Sinclair was also the first President of the British Columbia Government Premier's Technology Council, and the founding director of the ExCITE lab at Simon Fraser University, the first digital media technology R&D centre in Canada. She holds a Ph.D. in Renaissance drama as well as an honorary Doctor of Science in Computing Science from the University of British Columbia. She also serves as a Senior Innovation Strategist at Ryerson University in Toronto, and at Telefonica's Advanced Multimedia Research Lab in Barcelona, Spain. In addition to being a member of the Toronto Montreal Stock Exchange Board of Directors (TMX), she is currently a director of the Vancouver Airport Authority (YVR), as well as on the Board of ThinkData, a small Toronto-based start-up in the field of Big Data.

Keith Wettlaufer: Keith Wettlaufer is the former Chief Financial Officer and Executive Vice President of Commercial Services of Bruce Power. Prior to joining Bruce Power, Keith was employed by Linamar Corporation as Chief Financial Officer and Executive Vice President of Strategic Development. From 1996 through 2000, Keith was employed by A.G. Simpson Co. Limited, a metal fabrication company in the automotive industry. Previously, Keith was President of InterTAN Inc., which owned and operated 3000 Radio Shack retail stores in Canada, Australia, United Kingdom, Belgium, France and Holland. Keith spent seven years with Magna International as Treasurer, and as Executive Vice President, Finance & Administration for Cosma International, a unit of Magna that focused on automotive body systems. Keith was Director of Internal Audit at The Oshawa Group. Keith joined Price Waterhouse Chartered Accountants and spent six years with that firm. Keith obtained an

undergraduate degree in Economics and Accounting at Wilfrid Laurier University and obtained his Chartered Accountant designation in 1976. Keith represents Kensington on the board of Plainfield Industries.

Prior to June 6, 2016, the Fund also appointed three of these individuals (Sean Aylward, Rubin Osten and Keith Wettlaufer) to act as the Fund's Independent Review Committee, which was established to refer conflict of interest matters arising in respect of the Fund for review in accordance with National Instrument 81-107. The Fund transitioned from the independent review committee structure required for investment funds to the Manager's standard conflict of interest oversight by its independent Advisory Board when the Fund became a corporate finance issuer. The Fund paid \$5,000 to each member of the Independent Review Committee between April 1, 2015 and March 31, 2016.

Investment Committee

The investment committee (the "Investment Committee") must review and approve every investment proposed by the Manager prior to the completion of such investment. The Investment Committee consists of the following individuals: Thomas Kennedy (Chair), Richard Nathan, John Walker, Suganya Tharmalingam and Eamonn McConnell.

CONFLICTS OF INTEREST

The Manager and its affiliates are engaged in a wide range of investment management, investment advisory and other business activities. The Manager invests in private equity markets on behalf of institutional investors and high net worth individuals and invests in private equity funds and companies from time to time that focus on a wide variety of opportunities in the private equity market. The services provided by the Manager under the Management Agreement are not exclusive and nothing in the Management Agreement prevents the Manager, or any of its affiliates, from providing similar services to other Funds and other persons (whether or not their investment objectives, strategies and policies are similar to those of the Fund) or from engaging in other activities. The Manager's investment decisions for the Fund will be made independently of those made for other persons and independently of its own investments.

From time to time, the Manager (or its affiliates) may enter into agreements with private equity fund managers or fund of funds managers to provide assistance within the Canadian market, or to provide assistance to the Manager in developing business opportunities in their local markets.

The Advisory Board will review and approve or make recommendations to the Manager with respect to conflicts of interest relating to actions by the Fund and the Manager pursuant to the Management Agreement, including with respect to investments made in parallel with other funds managed by the Manager, given the potential conflicts of interest that may exist. The determination, advice, approval and/or non-approval of the Advisory Board in respect of such matters will not be binding on the Fund, the Trustee or the Manager.

Kensington Private Funds

The Manager has established a number of other Funds which focus on private equity investments in various sectors and geographic regions (the "Kensington Private Funds"). The Manager intends to establish additional Kensington Private Funds in the future. The

investments made by the Kensington Private Funds will consist of investments in underlying private equity funds, direct investments in private companies as well as opportunistic investments and temporary investments in accordance with each Kensington Private Fund's separate investment objectives.

Any investment opportunity identified by the Manager which is within the investment objectives for both the Fund and any Kensington Private Fund will be allocated, on an equitable basis, between the Fund and the Kensington Private Fund. Generally, investment opportunities will be allocated on a pro rata basis between the Fund and the Kensington Private Fund based on the amount of capital each has available for investment within its allocation to the geographic region or private equity sector in which the investment opportunity will fall, except to the extent the investment would conflict with any legal requirement to which either is subject, or would otherwise give rise to adverse consequences for the Fund, the Kensington Private Fund or their respective investors. The allocation to any geographic region or private equity sector of the Fund may be fixed by the Manager from time to time consistent with the Fund's investment objective. No additional fees will be payable by the Fund as a result of this parallel investment arrangement.

The Fund may invest directly in a Kensington Private Fund in addition to, or instead of, investing in parallel with the Kensington Private Funds. The Fund may only do so if the Manager determines that the Fund is able to make such investments directly in a Kensington Private Fund without any significant risk of adverse economic or tax effects on the Fund or the Unitholders, as determined by the Manager after consultation with counsel, and provided that any such direct investment in a Kensington Private Fund is made on a basis which achieves the same or better terms and conditions in aggregate as investing in parallel with the Kensington Private Funds, including ensuring that there is no duplication of management fees paid to the Manager or any of its affiliates. If the Fund desires to invest directly in a Kensington Private Fund, investment is subject to the annual management fees (but, for greater certainty, not any carried interest or performance fees) paid by the Kensington Private Fund to the Manager or any of its affiliates, in respect of such investment made by the Fund, will be offset against the annual management fee paid by the Manager to the Fund.

Principal Holders of Units

As of March 31, 2016, the Board of Trustees of the B.C. Credit Union Employee's Pension Plan B.C. ("B.C. Credit Union") holds 1,315,243 Class G Units, which constitutes 65.5% of the issued and outstanding Class G Units of the Fund.

DESCRIPTION OF UNITS OF THE FUND

The Fund is authorized to issue an unlimited number of Class A Units, Class E Units, Class F Units and Class G Units, each of which represents an equal, undivided beneficial interest in the net assets of the Fund and entitles the holder generally to the same rights and obligations as a holder of any other Unit and no Unit class shall have any privilege, priority or preference in relation to any other Unit class. The only differences between the classes of Units are the management fee, the basis upon which performance fees are calculated and the form in which performance fees are paid and the service fees payable in respect of the Units of each class, as described under “Fees and Other Expenses”.

Units of each class will be issued as fully paid and, once issued, shall be non-assessable. There shall be no limit to the number of Units that may be issued, subject to any determination to the contrary made by the Trustee of the Fund in its sole discretion.

The Units of each class shall have the following rights, privileges and restrictions:

- (a) each Unit shall entitle the holder thereof to one vote at all meetings of Unitholders;
- (b) each Unit is entitled to participate equally with respect to any and all distributions made by the Fund, including distributions of net income and net realized capital gains; and
- (c) on liquidation or termination of the Fund, each Unit shall entitle the holder thereof to participate equally with respect to the distribution of the remaining assets of the Fund after payment of the Fund’s debts, liabilities and liquidation or termination expenses pursuant to Article 12 of the Declaration of Trust.
- (d) In addition:
 - (i) there shall be no pre-emptive rights attaching to Units;
 - (ii) there shall be no liability for future capital calls or assessments attaching to Units;
 - (iii) the Trustee and the Manager of the Fund may be Unitholders;
 - (iv) the Trustee may in its discretion subdivide the Units outstanding at any time so that the number of outstanding Units may be increased, or consolidate the Units outstanding at any time so that the number of outstanding Units may be decreased; and
 - (v) the provisions or rights attaching to the Units of a class may only be modified, amended or varied with the consent of Unitholders given in accordance with provisions contained in section 13.3 of the Declaration of Trust. See “Declaration of Trust - Acts Requiring Unitholder Approval”.

Conversion Rights

The Units are convertible into any one of the other three classes of Units on a monthly basis by notice delivered no later than 5:00 p.m. (Toronto time) on the tenth business day prior to the last business day of a month (a “Conversion Date”) and any Unit so surrendered shall be converted into any other Unit class on such last business day of such month. For each Unit of a particular class so converted, a holder will receive a number of Units of the selected class equal to the Net Asset Value per class of Unit surrendered as of the Conversion Date divided by the Net Asset Value of the class of Unit subscribed as of the Conversion Date.

Redemption

A Unitholder may redeem Class A Units or Class F Units on the last business day in December of each year (a “Redemption Date”) for a redemption price per Unit equal to the NAV per Unit of the class determined on the Redemption Date less a redemption fee of 10% of the NAV per Unit of the class, less any costs incurred by the Fund in funding the redemption, including commissions paid by the Fund.

A Unitholder may redeem Class E Units or Class G Units on a Redemption Date for a redemption price per Unit equal to the NAV per Unit of the class determined on the Redemption Date, less any costs incurred by the Fund in funding the redemption, including commissions paid by the Fund and less the applicable redemption fee. The redemption fee applicable on the redemption of Class E Units or Class G Units is an amount equal to (i) 5% of the NAV per Unit of the class if the holder has held such Units for up to 3 years, and (ii) nil if the holder has held such Units for more than 3 years.

If the redeeming Unitholder acquired Class E Units or Class G Units by converting Class A Units or Class F Units into such Units, the period of time that the holder held such Class A Units or Class F Units prior to such conversion is not included in determining the amount of the redemption fee applicable on redemption of such Class E Units or Class G Units. For the purpose of determining duration of ownership prior to redemption, ownership of units in Global Fund shall be considered ownership of the same class of Units in the Fund.

The redemption fee payable on a redemption of Units of a class is hereinafter referred to as the “Redemption Fee”.

No more than 20% of the outstanding Units of a class may be redeemed on any Redemption Date. If more than 20% of the outstanding Units of a class are surrendered for redemption on any Redemption Date, redemptions will be conducted on a pro rata basis.

The Manager has a right to designate a purchaser for any Units tendered for redemption. In such case, the Units will be purchased by the designated purchaser at the redemption price and will not be redeemed.

Redemption Procedures

A Unitholder who desires to exercise redemption privileges must do so by causing a FundSERV Participant to deliver to FundSERV on behalf of the Unitholder a written notice of the Unitholder’s intention to redeem Units, no earlier than 120 days and no later than 5:00 p.m. (Toronto time) on the 60th day prior to the applicable Redemption Date. A Unitholder who desires to redeem Units should ensure that the FundSERV Participant is provided with

notice (the “Redemption Notice”) of the Unitholder’s intention to exercise such holder’s redemption privilege sufficiently in advance of the relevant notice date so as to permit the FundSERV Participant to deliver notice to FundSERV by the required time. The Redemption Notice will be available from a FundSERV Participant or the Fund’s registrar and transfer agent (SGGG Fund Services Inc.). Any expense associated with the preparation and delivery of Redemption Notices will be for the account of the Unitholder exercising the redemption privilege.

By causing a FundSERV Participant to deliver to FundSERV a notice of the Unitholder’s intention to redeem Units, a Unitholder shall be deemed to have irrevocably surrendered its Units for redemption and appointed such FundSERV Participant to act as its exclusive settlement agent with respect to the exercise of the redemption privilege and the receipt of payment in connection with the settlement of obligations arising from such exercise. Any Redemption Notice which FundSERV (or on termination of FundSERV, the transfer agent and registrar) determines to be incomplete, not in proper form or not duly executed shall for all purposes be void and of no effect and the redemption privilege to which it relates shall be considered for all purposes not to have been exercised thereby. A failure by a FUNDSEV Participant to exercise redemption privileges or to give effect to the settlement thereof in accordance with the Unitholder’s instructions will not give rise to any obligations or liability on the part of the Fund to the FUNDSEV Participant or to the Unitholder. The Fund has the option to terminate registration of the Units through FundSERV, in which case Unitholders must provide the transfer agent and registrar with a Redemption Notice no later than 5:00 p.m. (Toronto time) on the 60th day prior to the applicable Redemption Date.

Suspension of Redemptions

The Manager may suspend the redemption of Units or payment of redemption proceeds for any period not exceeding 90 days during which the Manager determines that conditions exist which render impractical the sale of assets of the Fund or which impair the ability of the Manager to determine the value of the assets of the Fund. Such conditions may include (but are not limited to) changes affecting financial markets or the private equity markets generally (or a segment thereof) or a material adverse change in the business and affairs of the Fund. The suspension may apply, in the discretion of the Manager, to all requests for redemption received prior to the suspension but as to which payment has not been made, as well as to all requests received while the suspension is in effect. All Unitholders making such requests shall be advised by the Trustee of the suspension and that the redemption will be effected at the redemption price determined as of the Redemption Date in respect of which the Unitholder exercised its redemption privilege, upon the calculation of such redemption price within such 90 day period. All such Unitholders shall have and shall be advised that they have the right to withdraw their requests for redemption. The suspension shall terminate in any event on the first day on which the condition giving rise to the suspension has ceased to exist provided that no other condition under which a suspension is authorized then exists. To the extent not inconsistent with official rules and regulations promulgated by any governmental body having jurisdiction over the Fund, any declaration of suspension made by the Manager shall be conclusive.

Designated Purchasers

Each Unitholder is deemed to have granted the Manager a right, exercisable prior to any relevant Redemption Date, to designate a purchaser for any Units tendered for redemption, which purchaser may be a Kensington Private Fund or an affiliate of the

Manager. If the Manager exercises this right in respect of any Units tendered for redemption, the Units will be purchased by the designated purchaser at the redemption price and will not be redeemed.

Recirculation of Redeemed Units

Subject to the Manager's right to designate a purchaser for any Units tendered for redemption as described above, the Fund may, at any time, enter into an agreement (a "Recirculation Agreement") with an agent (the "Recirculation Agent") pursuant to which the Recirculation Agent will find purchasers for any Units tendered for redemption prior to the relevant Redemption Date. Under the Recirculation Agreement, the Fund will be permitted to, but will not be obligated to, require the Recirculation Agent to seek such purchasers and, in such event, the amount to be paid to the Unitholder on the applicable Redemption Payment Date will be an amount equal to the proceeds of the sale of the Units of a class less any applicable commission, provided that such amount will not be less than the applicable redemption price of the class, as applicable, less any costs incurred by the Fund in funding the redemption that would otherwise be paid to the Unitholder for such redeemed Units, as described above. Subject to the Fund's right to require a Recirculation Agent to find purchasers for any Units tendered for redemption prior to the relevant Redemption Date, any and all Units which have been surrendered to the Fund for redemption are deemed to be outstanding until (but not after) the close of business on the relevant Redemption Date, unless not redeemed thereon, in which event such Units will remain outstanding.

Market Purchases of Units

The Fund shall have the right (but not the obligation) at any time, exercisable in its sole discretion, to purchase Units in the market, subject to any applicable regulatory requirements and limitations or as otherwise permitted by applicable law.

Book-Entry Only System

Registration of interests in and transfers of Units will only be made through FUNDSERV. Any purchase or transfer of Units must be made through a FUNDSERV Participant. Indirect access to the FUNDSERV system is also available to other institutions that maintain custodial relationships with a FUNDSERV Participant, either directly or indirectly. Each purchaser of a Unit will receive a customer confirmation of purchase from the FUNDSERV Participant from whom such Unit is purchased in accordance with the practices and procedures of such FUNDSERV Participant.

The Fund has the option to terminate FUNDSERV, in which Units in fully registered certificated form will be issued to Unitholders, as of the effective date of such termination.

DECLARATION OF TRUST

Pursuant to the Declaration of Trust, the Manager is the administrator and Trustee of the Fund and, as such, is responsible for providing or arranging for required administrative services to the Fund including, without limitation: authorizing the payment of operating expenses incurred on behalf of the Fund; preparing financial statements and financial and accounting information as required by the Fund; approving financial statements (including interim and annual financial statements) and other reports as are required by applicable law from time to time and ensuring that Unitholders are provided with such statements and

reports as required; ensuring that the Fund complies with regulatory requirements; preparing the Fund's reports to Unitholders; fulfilling its fiduciary responsibilities; determining the amount of distributions to be made by the Fund; and negotiating contractual agreements with third-party providers of services, including registrars, transfer agents, auditors and printers.

Acts Requiring Unitholder Approval

The following matters relating to the Fund require approval of the Unitholders by Extraordinary Resolution:

- (a) the issuance of additional Units at a price less than the most recently calculated NAV per Unit of the relevant class prior to the date of the setting of the issue price;
- (b) a change in the investment objective and strategy of the Fund;
- (c) a change in the investment restrictions of the Fund;
- (d) (A) after the occurrence of Cause (as defined in the Declaration of Trust) in respect of the Trustee, the removal of the Trustee, or (B) after the occurrence of Cause (as defined in the Management Agreement), the removal of the Manager and termination of the Management Agreement;
- (e) a decrease in the frequency of calculating the NAV per Unit of the relevant class or of redeeming Units;
- (f) an amendment, modification or variation in the provisions or rights attaching to the Units; or
- (g) any material change in the calculation of performance fees payable to the Manager, including any change in the minimum NAV required for the Manager to earn its performance fee.

The following matters relating to the Fund require approval of the Unitholders by a simple majority vote:

- (a) any change in the basis of calculating fees or other expenses that are charged to the Fund which could result in an increase in charges to the Fund;
- (b) a change of the auditors;
- (c) a reorganization with, or transfer of assets to, another entity, if (A) the Fund ceases to continue after the reorganization or transfer of assets; or (B) the transaction results in Unitholders becoming security holders in the other entity; or
- (d) a reorganization with, or acquisition of assets of, another entity, if (A) the Fund continues after the reorganization or acquisition of assets; (B) the transaction results in the securityholders of the other entity becoming Unitholders of the Fund; and (C) the transaction would be a significant change to the Fund.

Meetings of Unitholders

The Fund does not intend to hold annual Unitholder meetings unless required under applicable law or regulatory requirements. A meeting of Unitholders of the Fund may be convened by the Manager at any time and must be convened if requisitioned by the holders of not less than 10% of the Units then outstanding by a written requisition specifying the purpose of the meeting. At any such meeting, each Unitholder will be entitled to one vote for each Unit of each class registered in the Unitholder's name. Meetings of Unitholders shall be held at the head office of the Fund, or such other place within the Province of Ontario as the Trustee shall determine and designate.

Proxy Voting Guidelines

The Fund has adopted proxy guidelines (the "Proxy Guidelines") with respect to the voting of proxies received by it relating to voting securities held from time to time by the Fund. Pursuant to the Proxy Guidelines, the Manager will vote proxies in the best interests of Unitholders.

The Proxy Guidelines will apply to the voting of any securities comprising the Liquid Investments as well as voting by the Fund in its capacity as limited partner or equity holder in an Underlying Investment. Given the nature of the securities comprising Liquid Investments which the Fund will hold, it is likely to receive proxies in respect of securities comprising Liquid Investments on an infrequent basis. Similarly, holdings of private equity fund interests will require voting by the Fund on an infrequent basis, on material matters. Ultimately, each vote will be cast on a case-by-case basis, taking into consideration the relevant facts and circumstances at the time of each vote.

The Proxy Guidelines set out various factors that the Manager will consider when voting, or refraining from voting, proxies or underlying interests, including that:

- (a) the Manager will generally vote with management on routine matters relating to the operation of an issuer that are not expected to have a significant economic impact on the issuer or its securityholders, unless the Manager determines that the management recommendation should not be supported because it is not in the best interests of securityholders of that issuer;
- (b) Underlying Investments which are holdings in direct portfolio investments but are subject to a co-investment arrangement will generally be voted as required by such co-investment arrangement; and
- (c) the Manager will review and analyze, on a case-by-case basis, and may in its discretion discuss with the Advisory Board, non-routine proposals and issues which are potentially contentious or that are more likely to have an impact on the value of the investment held by the Fund.

The Fund's Proxy Guidelines and the proxy voting record are available to Unitholders on request, at no cost, by contacting the Manager at 95 St. Clair Avenue West, Suite 905, Toronto, Ontario, M4V 1N6 and the Proxy Guidelines will also be made available on the Manager's website at www.kcpl.ca.

Termination of the Fund

The Fund does not have a fixed termination date. The Trustee may, in its discretion, terminate the Fund without the approval of Unitholders if, in the opinion of the Manager after consulting with the Advisory Board, the NAV of the Fund has been reduced as a result of redemptions or otherwise such that it is no longer economically feasible to continue the Fund and it would be in the best interests of the Unitholders to terminate the Fund.

Immediately prior to the date of termination of the Fund, the Manager will, to the extent possible, convert the assets of the Fund to cash and the Trustee shall, after paying or making adequate provision for all of the Fund's liabilities, distribute the net assets of the Fund to Unitholders on a pro rata basis as soon as practicable after the date of termination of the Fund. The termination date will also be a Valuation Date (as defined below) for purposes of calculating fees payable to the Manager, and the Manager's share of net assets on termination will also be distributed in respect of Units issued to the Manager in satisfaction of such fees.

Information and Reports to Unitholders

The Fund's fiscal year end is March 31 in each year. The Fund completed its transition to a corporate finance issuer as of June 6, 2016 and its continuous disclosure obligations of the Fund are governed primarily by National Instrument 51-102 -*Continuous Disclosure Requirements*. The Fund will prepare and publish an annual information form, annual financial statements, interim financial statements on a quarterly basis, annual MD&A (Management Discussion and Analysis), interim management reports and quarterly portfolio disclosure on a quarterly basis.

Accordingly, the fiscal year ended March 31, 2015 is the last year for which the Fund's continuous disclosure obligations were governed primarily by National Instrument 81-106 *Investment Fund Continuous Disclosure*. The most significant differences between the two regimes as they are applicable to the Fund are that the Fund will now provide quarterly financial statements and Management Discussion and Analysis instead of semi-annual financial statements and semi-annual Management Report of Fund Performance, and as a corporate finance issuer the Fund will calculate and publish the Fund's NAV once per month instead of twice per month, as there are no specific regulatory requirement regarding the calculation and publication of the Fund's NAV.

All such reports will be published on the Manager's website at www.kcpl.ca.

DISTRIBUTIONS

The Fund's predecessor, the Kensington Global Private Equity Fund, and the Fund have completed the following distributions to Unitholders of net realized gains on investments:

October 14, 2011	\$1,712,851	\$0.68 per Unit
October 10, 2012	\$4,167,164	\$1.56 per Unit
March 26, 2013	\$5,968,960	\$2.13 per Unit
October 23, 2014	\$7,384,269	\$2.26 per Unit
March 13, 2015	\$4,617,993	\$1.30 per Unit
October 15, 2015	\$5,492,609	\$1.32 per Unit

The Manager currently expects that the profits from the sale of portfolio companies held by Underlying Funds, as well as the sale of other Underlying Investments, will continue to provide a flow of distributions to the Fund, with the opportunity for corresponding distributions to Unitholders.

The aggregate distributions of net income and net realized capital gains made in each year shall be such amount as is sufficient to ensure that the Fund is not liable for income tax on such distributions under the Tax Act, except to the extent that any tax payable on net realized capital gains of the Fund for a year that are retained by the Fund would be recoverable by it in respect of such year. To the extent that net income of the Fund for purposes of the Tax Act exceeds distributable cash, such excess will be distributed in the form of additional Units of each class.

The level of distributions paid by the Fund will vary over time and there can be no assurance that the Fund will make any cash distributions in any particular year.

VALUATION

The NAV of the Fund on any date will be equal to the difference between the aggregate value of the assets of the Fund and the aggregate value of the liabilities of the Fund on that date, other than liabilities relating exclusively to a specific class of Units, as determined from time to time. The NAV will include any net income, net realized and unrealized capital gains and other amounts payable to Unitholders on or before such date, and before giving effect to any redemptions or issuances of Units to be implemented as of such date, expressed in Canadian dollars at the applicable exchange rate on such date and rounded to four decimal places.

The NAV of a class of Units of the Fund on any date will be equal to (i) the aggregate value of the property of the Fund on such date less the aggregate amount of the Fund's liabilities on such date, other than liabilities relating exclusively to a specific class of Units, multiplied by a fraction, the numerator of which is the number of Units of the class outstanding and the denominator of which is the total number of Units of the Fund outstanding minus (ii) all liabilities relating exclusively to the class on such date, as determined from time to time.

The "NAV per Unit of a class" is the NAV of a class of Units divided by the number of outstanding Units of such class (determined before giving effect to any reinvestment of net income, net realized capital gains or other distributions then payable to Unitholders and before giving effect to any redemptions or issuances of Units to be implemented as of such date) as determined from time to time.

The NAV and the NAV per Unit of each class will be calculated by the Manager as of the last business day of each month, and may also be calculated on any other date as the Trustee may determine (each, a "Valuation Date") and posted on the Manager's website at www.kcpl.ca and at such other times as determined by the Manager.

Most of the investments made by the Fund, including investments that are made through the Underlying Funds, will be in the form of investments for which no published market exists. The Manager will be required to make good faith determinations as to the fair value of these investments in determining the NAV of the Fund on each Valuation Date and on a semi-annual basis in connection with the preparation of the Fund's financial statements.

In determining the NAV and the NAV per Unit of each class at any time:

- (a) the value of non-public investments will be determined by the Manager at fair market value in such manner as it may reasonably determine (in this regard, the Manager will be guided by definitive information received from the managers of Underlying Funds (and from lead co-investors in other Underlying Investments where applicable) such as their published quarterly reports and interim information regarding completed transactions, but will generally not adjust the NAV based on anticipated transactions which are not yet completed or other factors, until such adjustments are reflected in such definitive reports);
- (b) the value of any publicly-listed common shares and other securities will be the latest closing price for such common shares or other securities on the principal stock exchange on which they are listed and traded prior to the determination of the NAV and the NAV per Unit of each class, provided, however, that the Manager may apply a discount to the public market price where contractual lock-ups or other similar restrictions on trading exist, based on guidance received from the Fund's co-investor in the company or from other parties in a position to assess the liquidity of the investment;
- (c) the value of any cash on hand or on deposit, prepaid expenses, cash dividends or distributions declared and interest accrued and not yet received, shall be deemed to be the face amount thereof unless the Manager determines that any such asset is not worth the face amount thereof, in which event the value thereof shall be deemed to be such value as the Manager determines to be the fair value thereof;
- (d) notes, money market instruments and other debt securities shall be valued at their quoted market price at the close of trading on the last day of trading prior to the NAV Date;
- (e) if a Valuation Date is not a business day, then the securities comprising the Underlying Investments and other property of the Fund will be valued as if such Valuation Date were the preceding business day;
- (f) all fees and expenses of the Fund that are based on the NAV and the NAV per Unit of each class will be deducted after the applicable NAV calculation; and
- (g) the liabilities relating exclusively to a specific class of Units to be deducted in determining the NAV of that class of Units will not be deducted from the NAV of the other class of Units; for example, liabilities to be deducted in determining the NAV of the Class A Units (but which would not be deducted in determining the NAV of the other classes of Units) include the service fee payable as described under "Fees and Expenses - Service Fee".

If an investment cannot be valued under the foregoing rules or if the foregoing rules are at any time considered by the Manager to be inappropriate under the circumstances, then notwithstanding such rules, the Manager will make such valuation as it considers fair and reasonable and, if there is an industry practice, in a manner consistent with industry practice for valuing such investment.

The Fund's valuation policies may be modified from time to time by the Trustee acting reasonably and in the best interests of Unitholders. A copy of the valuation policies currently in effect can be found on the Manager's website at www.kcpl.ca.

FEES AND OTHER EXPENSES

Management Fee

Pursuant to the Management Agreement, the Manager is entitled to receive from the Fund an annual fee, calculated and paid quarterly in advance, equal to a percentage of the NAV of the Units of the class calculated as of the Valuation Date that immediately precedes the commencement of the quarter in respect of which the fee is payable, plus applicable taxes (the "Management Fee"). The annual Management Fee payable in respect of the Class A Units and the Class F Units is 1.95%. The annual Management Fee payable in respect of the Class E Units and the Class G Units is 1.65%. The Management Fee is paid on the first business day of each quarter.

Pursuant to the agreements governing the Kensington Private Funds, the Manager is entitled to certain management fees and, in some cases, carried interest payments. These amounts will be borne by investors in the Kensington Private Funds, and not the Fund. Should the Fund invest directly in a Kensington Private Fund, the annual management fees (but, for greater certainty, not any carried interest or performance fees) paid by the Kensington Private Fund to the Manager or any of its affiliates, in respect of such investment made by the Fund, will offset the annual management fee paid to the Manager by the Fund. The result of these offsets will be that an investor in the Fund will only ever pay one fund of funds annual management fee to the Manager.

From time to time to encourage a large holding of Units, the Manager may, in its sole discretion, reduce the Management Fee otherwise payable to it and allocate the benefit of such reduced fee to the Unitholder. In such case, the Fund will distribute to the Unitholder an amount equal to the reduction of the Management Fee. The amount of the Management Fee reduction is negotiable between the Manager and the Unitholder and will be based, among other factors, on the size of the holdings by the Unitholder in the Fund. Such Management Fee distributions will be made quarterly by the Fund to the relevant Unitholder in an amount equal to the portion of the fee otherwise payable to the Manager. If the Manager determines to reduce its Management Fee in respect of one Unitholder, it will not be bound to do so in respect of other Unitholders or subsequent Unitholders.

Service Fee

The Manager will be paid, as an additional fee, by the Fund on a quarterly basis, an amount equal to the service fee to be paid by the Manager to registered dealers whose clients hold Class A Units or Class E Units. The annual service fee payable in respect of the Class A Units is 0.40% and the annual service fee payable in respect of the Class E Units is 1.00%. No service fee is payable in respect of the Class F Units or Class G Units.

Performance Fee

The Manager may earn a performance fee (the "Performance Fee") based on distributions to Unitholders of net income and of net realized capital gains (and excluding any amounts distributed as a return of capital). The amount of the Performance Fee shall be that

amount which results in the Manager receiving 10% of the sum of the total amount paid as cash distributions plus the total amount paid as the Performance Fee. A Performance Fee in respect of the Class A Units and the Class F Units is payable to the Manager in the form of Units, while the Performance Fee in respect of the Class E Units and Class G Units is payable to the Manager in cash. A Performance Fee shall not be paid to the Manager unless the Fund makes cash distributions to Unitholders.

In order for the Manager to earn the Performance Fee on any class of Units in any year, the NAV per Unit of that class must be at least equal to the "Fully Paid NAV per Unit" at the time a Distribution is declared. The Fully Paid NAV per Unit is currently \$20.00 per Unit, based upon the original issue price of the Class A Units of the Fund, and will be reduced by any amounts distributed to investors as a return of capital. In addition, in order for the Manager to earn the Performance Fee on the Class A Units or the Class F Units in any year, Unitholders must have received, or must receive in such year, on a cumulative non-compounding basis since the beginning of 2010, Distributions per Unit of net income and of net realized capital gains (and excluding any amounts distributed to investors as a return of capital) equal to not less than 10% of the Fully Paid NAV per Unit for each such year.

Performance Fees which are paid in Units shall be issued at the NAV per Unit of the applicable class as at the last Valuation Date in the applicable calendar year. Twenty percent (20%) of such Units will be issued to the Manager on such Valuation Date with the remaining 80% of such Units held in escrow, vesting at a rate of a further 20% of the total amount per year over a four year period. If at the end of any year in which such Units would otherwise vest the performance hurdle described above has not been achieved, the vesting of such Units will be deferred to the next occurring year in which the performance hurdle is achieved. In the event the Manager is removed in accordance with the Management Agreement or the Management Agreement is otherwise terminated, all unvested Units shall immediately vest and be released to the Manager.

Ongoing Fees

The Fund will pay for all expenses incurred in connection with its ongoing operation and administration. These expenses include: mailing and printing expenses for periodic reports to Unitholders; fees payable to the Custodian for acting as custodian of the assets of the Fund including related expenses for electronic mail facilities and publications on the Manager's website; fees payable to the registrar and transfer agent of the Units for performing certain financial, record-keeping, Unitholder reporting and general administrative services; fees payable to the auditor, accountants, valuers, legal advisors and other professional advisors and professional service providers of the Fund; fees and expenses incurred in connection with sourcing, reviewing, completing, monitoring and exiting investments for the Investment Fun, including in respect of potential investments which are not completed; debt service fees (including set-up and commitment fees); taxes; insurance premiums; fees payable to the Advisory Board; ongoing regulatory filing fees and other fees; expenses relating to litigation, indemnification or the enforcement and protection of rights relating to the Fund; expenses incurred pursuant to the terms of the agreements governing the Underlying Investments and related agreements; extraordinary expenses (in addition to normal day to day operating expenses); any fees or expenses incurred in connection with the issuance of additional Units of the Fund (including agency fees and sales commissions); any reasonable out-of-pocket expenses incurred by the Manager or its agents in connection with their ongoing obligations to the Fund; costs and expenses of preparing, printing, and mailing

financial and other reports to Unitholders, material for Unitholders' meetings and securities regulatory filings; costs and expenses of investor relations activities, including meetings and communication with Unitholders; costs and expenses arising as a result of complying with all applicable securities legislation and other applicable laws, regulations and policies; and any expenditures that may be incurred upon the termination of the Fund, but excluding the fees payable to the Manager. Such expenses also include expenses of any action, suit or other proceedings in which or in relation to which the Manager, any sub-advisor, the Custodian or the Manager and/or any of their respective officers, directors, employees, consultants or agents is entitled to indemnity by the Fund.

INCOME TAX CONSIDERATIONS

The following is a summary of the principal Canadian federal income tax considerations generally relevant to Unitholders who are individuals (other than trusts) and who, for purposes of the Tax Act, are resident in Canada, deal at arm's length with and are not affiliated with the Fund and hold their Units as capital property (each a "Holder"). This summary assumes that no Holder has entered or will enter into a "derivative forward agreement" as defined in the Tax Act with respect to the Units. This summary is based upon the facts set out in this Annual Information Form, the current provisions of the Tax Act, the regulations thereunder, the Manager's understanding of the current published administrative policies and assessing practices of the Canada Revenue Agency ("CRA") publicly available as of the date hereof, and the specific proposals to amend the Tax Act and regulations thereunder announced prior to the date hereof by the Minister of Finance (Canada) (the "Proposed Amendments"). No assurances can be given that the Proposed Amendments will become law as proposed or at all.

This summary is also based on the assumptions that the Fund, together with affiliated and related parties, will not be entitled to more than 10% of the income of any partnership (or assets in the case of a winding up of a partnership), that none of the issuers of the securities held by the Fund will be a foreign affiliate of the Fund or of any Unitholder, and that none of the securities held by the Fund will be (i) a "tax shelter investment" within the meaning of the Tax Act; (ii) an offshore Fund property that would require the Fund to include significant amounts in the Fund's income pursuant to section 94.1 of the Tax Act or an interest in a non-resident trust which would require the Fund to include amounts in income in connection with such interest pursuant to section 94 or 94.2 of the Tax Act.

This summary also assumes that the Fund was not established and will not be maintained primarily for the benefit of non-residents of Canada for purposes of the Tax Act.

This summary is not exhaustive of all possible federal income tax considerations and does not take into account or anticipate any changes in law, whether by legislative, governmental or judicial action, other than the Proposed Amendments. This summary does not deal with foreign, territorial or provincial income tax considerations, which might differ from the federal considerations summarized herein.

This summary is of a general nature only and does not constitute legal or tax advice to any particular investor. Prospective investors are advised to consult their own tax advisors with respect to the tax consequences to them of a prospective investment in Units in their individual circumstances.

Status of the Fund

Provided that the Fund meets certain prescribed conditions ("minimum distribution requirements") relating to the number of Unitholders, dispersal of ownership of Units and public trading of its Units at such time and provided that its sole undertaking is and continues to be the investing of its funds in property (other than real property or an interest in real property) and the Fund complies with its investment restrictions as described in this Annual Information Form, the Fund will qualify at a particular time as a "mutual fund trust" as defined in the Tax Act. This summary assumes that the Fund satisfies the minimum distribution requirements at all relevant times, and that it elected to be deemed to be a mutual fund trust from the date that it was established to and including the date of such

election, and that it has satisfied and will continuously satisfy the mutual fund trust requirements at all relevant times. An additional condition to qualify as a mutual fund trust for purposes of the Tax Act is that the Fund may not be established or maintained primarily for the benefit of non-resident persons unless, at all times, all or substantially all of its property consists of property other than “taxable Canadian property” within the meaning of the Tax Act.

Under the Tax Act, certain trusts or partnerships (defined as “SIFT trusts” and “SIFT partnerships”, respectively) the securities of which are listed or traded on a stock exchange or other public market, and that hold one or more “non-portfolio properties” (as defined) are effectively taxed on income and capital gains in respect of such non-portfolio properties at combined rates comparable to the rates that apply to income earned and distributed by taxable Canadian corporations. Distributions of such income received by unitholders of SIFT trusts (and allocations of such income made to members of SIFT partnerships) are treated as eligible dividends from a taxable Canadian corporation. This summary assumes that the Fund will at no time be a SIFT trust.

If the Fund were not to qualify as a mutual fund trust or were to qualify as a SIFT trust, the income tax consequences described below would in some respects be materially and adversely different.

Taxation of the Fund

The taxation year of the Fund will be the period ending December 31 of each year. The Fund is subject to tax in each taxation year under Part I of the Tax Act on the amount of its income for the year computed pursuant to the Tax Act, including net realized taxable capital gains, less the portion thereof that it claims in respect of the amount paid or payable to Unitholders in the year. Income tax paid by the Fund on any net realized capital gains not paid or payable to its Unitholders is recoverable by the Fund to the extent and in the circumstances provided in the Tax Act.

To the extent the Fund holds trust units in its portfolio issued by a trust resident in Canada that is not at any time in the relevant taxation year a SIFT trust, the Fund will be required to include in the calculation of its income the net income, including net taxable capital gains, paid or payable to the Fund by such trust in the year, notwithstanding that certain of such amounts may be reinvested in additional units of such issuer. Provided that appropriate designations are made by such trust, net taxable capital gains realized by such trust and taxable dividends from taxable Canadian corporations received by the such trust that are paid or payable to the Fund will effectively retain their character in the hands of the Fund. The Fund will be required to reduce the adjusted cost base of units of such trust by any amount paid or payable by the trust to the Fund except to the extent that the amount was included in calculating the income of the Fund or was the Fund’s share of the non-taxable portion of capital gains of the trust, the taxable portion of which was designated in respect of the Fund. If the adjusted cost base to the Fund of such units becomes a negative amount at any time in a taxation year of the Fund, that negative amount will be deemed to be a capital gain realized by the Fund in that taxation year and the Fund’s adjusted cost base of such units will be increased by the amount of such deemed capital gain.

With respect to each issuer in the Fund’s portfolio that is a limited partnership that is not at any time in the relevant taxation year a SIFT partnership, the Fund will be required to include, or subject to certain restrictions will be entitled to deduct, as the case may be, in

computing its income, its share of net income, capital gains, losses and capital losses for tax purposes of the issuer allocated to the Fund for the fiscal period of the issuer ending in the Fund's taxation year, whether or not a distribution is received in respect thereof from the issuer.

In general, the adjusted cost base at a particular time to the Fund of units of a limited partnership will be equal to the cost of such units to the Fund plus its share of income and capital gains of such partnership allocated to it for fiscal years of such partnership ending before the particular time less the total of its share of losses and capital losses of the limited partnership allocated to it for fiscal years of the partnership ending before the particular time and the Fund's share of any distributions received from such partnership before the particular time. If the adjusted cost base to the Fund of such units is a negative amount at the end of the fiscal year of such partnership, such amount will be deemed to be a capital gain realized by the Fund and the Fund's adjusted cost base will be increased by the amount of such deemed capital gain.

Each issuer in the Fund's portfolio that is a SIFT trust or SIFT partnership (which will generally include income trusts, other than certain REITs, and certain partnerships, the units of which are listed or traded on a stock exchange or other public market) will be subject to a special tax in respect of (i) income from business carried on in Canada, and (ii) certain income and capital gains in respect of "non-portfolio properties" (collectively, the "Non-Portfolio Income"). Non-Portfolio Income that is earned by a SIFT partnership, or is distributed by a SIFT trust to its unitholders, will be taxed at a rate that is equivalent to the federal general corporate tax rate plus a provincial tax factor. Non-Portfolio Income that becomes payable by an issuer that is a SIFT trust, or that is allocated to partners in the case of a SIFT partnership, will generally be taxed as though it were a taxable dividend from a taxable Canadian corporation and will be deemed to be an "eligible dividend" subject to an enhanced gross-up and tax credit provided by the Tax Act.

The Fund will also be required to include in its income for each taxation year in respect of debt obligations held by the Fund all interest that accrues to it to the end of the year, or becomes receivable or is received by it before the end of the year, except to the extent that such interest was included in computing its income for a preceding taxation year.

The Fund will be required to include in its income for a taxation year all dividends received in the year on shares of corporations.

In computing its income for tax purposes, the Fund may generally deduct reasonable administrative and other expenses incurred to earn income, including interest on borrowed funds to the extent such funds are used to purchase securities for the Fund's portfolio. The Fund may not deduct interest on borrowed funds to the extent such funds are used to fund redemptions.

The Fund may invest directly, or through one or more partnerships, in securities that are not denominated in Canadian dollars. Cost, proceeds of disposition of securities, distributions, interest and all other amounts will be determined for the purposes of the Tax Act in Canadian dollars. The Fund may realize gains or losses by virtue of the fluctuation in the value of foreign currencies relative to Canadian dollars.

Generally, the Fund will include gains and deduct losses in connection with its derivatives activities that are a substitute for direct investment on income account, and will

recognize such gains or losses for tax purposes at the time they are realized by the Fund. Where the Fund uses derivatives to hedge foreign currency exposure with respect to securities held on capital account, and such derivatives are sufficiently linked with such securities, gains or losses realized on such derivatives will be treated as capital gains or losses and are not “derivative forward agreements” as defined in the Tax Act.

The Fund will derive income (including gains) from investments in countries other than Canada and, as a result, may be liable to pay income or profits tax to such countries. To the extent that such foreign tax paid does not exceed, in the case of income from property, 15% of such income and has not been deducted in computing the Fund’s income, the Fund may designate a portion of its foreign source income in respect of a Unitholder so that such income and a portion of the foreign tax paid by the Fund may be regarded as foreign source income of, and foreign tax paid by, the Unitholder for the purposes of the foreign tax credit provisions of the Tax Act. To the extent that such foreign tax paid by the Fund, in respect of property income, exceeds 15% of the amount included in the Fund’s income from such investments, such excess may generally be deducted by the Fund in computing its income for the purposes of the Tax Act.

The Fund elected in accordance with the Tax Act to have each of its “Canadian securities” (as defined in subsection 39(6) of the Tax Act) treated as capital property. Such an election will ensure that gains or losses realized by the Fund on dispositions of Canadian securities will be taxed as capital gains or capital losses.

The Fund generally intends to deduct in computing its income in each taxation year for purposes of the Tax Act the full amount available for deduction in each year and therefore, provided that the Fund makes distributions in each year of its net income including net realized capital gains as described under the heading “Distributions”, it will generally not be liable in such year for income tax under Part I of the Tax Act other than such tax on net realized capital gains that would be recoverable by it in such year.

The Tax Act provides for a special tax on designated income of certain trusts which have designated beneficiaries. This special tax does not apply to a trust for a taxation year if the trust is a mutual fund trust throughout such year. Accordingly, provided that the Fund qualifies, or is deemed to qualify, as a mutual fund trust throughout a taxation year, it will not be subject to the special tax for such taxation year.

Taxation of Holders

A Holder will generally be required to include in the calculation of the Holder’s income for a taxation year under the Tax Act the net income and the net realized taxable capital gains of the Fund paid or payable to the Holder in the year or deemed so paid or payable, whether received in cash or distributed in the form of or reinvested in additional Units, including in the case of a Holder who receives distributions in respect of management fee reductions, to the extent such distributions are paid out of net income and net capital gains of the Fund. To the extent that distributions by the Fund to a Holder in any taxation year exceed the net income including net realized capital gains of the Fund for the year computed pursuant to the Tax Act, such distributions generally will not be included in the calculation of the Holder’s income for the year but will reduce the adjusted cost base of the Holder’s Units.

The Manager will designate to the extent permitted by the Tax Act the portion of the net income distributed to Holders as may reasonably be considered to consist of net realized taxable capital gains of the Fund net of realized capital losses and net capital loss carry forwards, and the taxable dividends (including eligible dividends) received, or deemed to be received, by the Fund on shares of taxable Canadian corporations and foreign source income of the Fund. Any such designated amount will be deemed for purposes of the Tax Act to be received or realized by Holders in the year as a taxable capital gain or taxable dividend from a taxable Canadian corporation or foreign source income, as the case may be, and qualifying foreign tax paid by the Fund shall be treated as foreign tax paid by the Holder for the purpose of the foreign tax credit provisions of the Tax Act. To the extent that amounts are designated as taxable dividends from taxable Canadian corporations, the normal gross-up and dividend tax credit rules will apply, including an enhanced gross-up and dividend tax credit in respect of “eligible dividends” designated as such. In addition, provided that appropriate designations are made by the Manager in respect of foreign income or gains of the Fund, for the purpose of computing any foreign tax credit available to a Holder, and subject to the rules in the Tax Act, the Holder will be deemed to have paid as tax to the government of a foreign country the Holder’s share of the taxes paid or considered to be paid by the Fund to that country.

Any loss of the Fund for purposes of the Tax Act cannot be allocated to, and cannot be treated as the loss of, a Holder.

Under the Tax Act, a trust is permitted to deduct in computing its income an amount which is less than the amount of its distributions. This will enable the Fund to utilize, in a particular taxation year, losses from prior years without affecting the ability of the Fund to distribute its income annually. The amount distributed to a Holder but not deducted by the Fund will not be required to be included in the income of the Holder. However, unless such amount relates to the non-taxable portion of capital gains, the taxable portion of which has been designated and allocated to the Holder, the adjusted cost base of the Holder’s Units would be reduced by such amount.

The NAV per Unit will reflect any income and gains of the Fund that have accrued or have been realized but not made payable at the time Units are acquired. Consequently, Holders that acquire additional Units may become taxable on their share of income and gains of the Fund that accrued or were realized before the Units were acquired and not made payable at such time.

Upon the actual or deemed disposition of a Unit, including on a sale or redemption, a capital gain (or capital loss) will generally be realized by the Holder to the extent that the Holder’s proceeds of disposition exceed (or are less than) the aggregate of the adjusted cost base to the Holder of the Unit and any reasonable costs of disposition. In general, the adjusted cost base of all Units of a class held by a Holder is the total amount paid for such Units (including brokerage commissions paid) less any non-taxable distributions (other than the non-taxable portion of capital gains, the taxable portion of which was designated by the Fund) such as a return of capital, and less the adjusted cost base of any Units of that class previously redeemed by the Holder. The cost of Units acquired as a distribution of income or capital gains will generally be equal to the amount of the distribution. For the purpose of determining the adjusted cost base to a Holder when a Unit of a class is acquired, the cost of the newly-acquired Unit will be averaged with the adjusted cost base of all of the Units of that class owned by the Holder as capital property before that time.

A Holder will realize a capital gain in an amount equal to the value, if any, of the right granted by the Holder to the Manager to purchase a Unit tendered by the Holder for redemption, if any. It is the opinion of the Manager that the value of such right is nil, although this is not binding on the CRA.

One-half of any capital gains (“taxable capital gains”) realized will be included in computing the income of a Holder and one-half of any capital loss realized may be deducted against taxable capital gains in accordance with the provisions of the Tax Act.

Eligibility for Investment

Provided that the Fund qualifies as a mutual fund trust within the meaning of the Tax Act at all relevant times, the Units will be qualified investments under the Tax Act for Registered Plans.

Notwithstanding the foregoing, if the Units are “prohibited investments” for the purposes of a tax-free savings account (or if the Units are “prohibited investments” for the purposes of a registered retirement savings plan or registered retirement income fund), a holder of a TFSA (or an annuitant of a registered retirement savings plan or registered retirement income fund) that governs a trust will be subject to penalty taxes as set out in the Tax Act.

RISK FACTORS

An investment in Units of the Fund will involve a high degree of risk. Prospective investors should carefully consider, among other factors, the matters described below, each of which could have an adverse effect on the value of the Units in the Fund. As a result of these factors, as well as other risks inherent in any investment, there can be no assurance that the Fund will meet its investment objectives or otherwise be able to successfully carry out its investment strategy. The Fund’s returns may be unpredictable and an investor should only invest in the Fund as part of an overall investment strategy. It may be several years before Underlying Investments of the Fund are realized and therefore an investment in the Fund may be appropriate only for investors who are prepared to hold Units for an extended period of time. There is no assurance that the Fund will make any distributions or earn any positive return, in the short-term or the long-term. Prospective investors should carefully consider the following risk factors before purchasing Units. Based on, among others, the factors described below, the possibility of partial or total loss of capital will exist and prospective investors should not subscribe unless they can readily bear the consequences of such loss.

Nature of Investment

An investment in the Fund requires a long-term commitment with no certainty of return. Investments of the Fund may not generate current income. Therefore, the return of capital and the realization of gains, if any, from an investment generally will occur upon the partial or complete realization or disposition of such investment. While an investment may be realized or disposed of at any time, it is generally expected that the ultimate realization or disposition of most of the Fund’s investments will not occur for a number of years after such investments are made. The Fund generally will not be able to sell securities of a portfolio company or investment publicly unless such company or investment has gone public and such sale is registered under applicable securities laws or unless an exemption from such

registration requirements is available. In addition, in some cases, the Fund may be prohibited or limited by contract from selling certain portfolio company securities for a period of time and, as a result, may not be permitted to sell an investment at a time it might otherwise desire to do so.

Lack of Liquidity

There is currently no market through which the Units may be sold and purchasers may not be able to sell the Units until such time as a secondary trading market develops. There can be no assurance that a secondary trading market for the Units will develop or if it develops, be sustained.

Past Results

The Fund was formed in 2014 and has limited historical financial statements or other meaningful operating or financial data by which its performance may be measured. While the Manager has experience managing private equity investments, and has invested for a number of years in a manner similar to that contemplated by the Fund, past results can be no assurance of future results or profitability.

Availability of Investments

There is no guarantee that suitable investment opportunities for the Fund's capital will be found, that investments on favourable terms can be negotiated or that the Fund will be able to realize on the value of its Underlying Investments or the value of the investments made by the Underlying Funds. Among other factors, competition for suitable portfolio investments from companies, the public equity markets and other investors may reduce the availability of investment opportunities. There has been significant recent growth in the number of firms organized to make private equity investments throughout the world, which may result in increased competition in obtaining suitable investments.

Reliance on the Manager

The Fund is managed exclusively by the Manager, with all investment decisions being made by the Manager. Unitholders will not be able to make investment or other decisions regarding the Fund. The Fund's ability to achieve its investment objective will depend on the ability of the Manager to effectively implement the Fund's investment strategy. The success of the Fund depends in substantial part upon the skill and expertise of the Manager's officers and employees and the other individuals employed to assist them. There can be no assurance that the officers and employees will continue to be members of or employed by the Manager. The loss of service to the Fund of one or more officers, employees, or members of the Manager could have a material adverse effect on the success of the Fund.

Allocation of Personnel

The Manager's officers and employees will not be able to devote all of their business time and attention to the Fund as they will continue to be involved in the operations of the Manager's other managed funds. The Manager's officers and employees will devote such time and attention to the business of the Fund as they reasonably consider necessary to carry out the operations of the Fund effectively.

Management of Fund's Capital

The Manager employs the commonly used private equity investment strategy of over-committing the Fund's capital to Underlying Investments in an effort to ensure that the Fund's capital is fully or substantially invested in Underlying Investments on a continuous basis. This over-commitment strategy is utilized because Underlying Funds generally will not draw down all of the capital commitments made by the Fund before the Underlying Funds start returning capital to the Fund. If the Manager is unable to maintain full or substantial investment of the Fund's capital in Underlying Investments, the investment returns realized by the Fund may be lower than they would be otherwise. However, use of the over-commitment strategy could also result in the Fund having to borrow to meet its capital commitments in certain circumstances or defaulting on its capital commitment obligations, either of which could have an adverse effect on the Fund's performance.

Exchange Rate Fluctuations

The functional currency of the Fund will be Canadian dollars. A substantial portion of the Fund's assets may be invested in non-Canadian private equity funds or funds of funds and the income received by the Fund will be denominated in the local currency of investment, whereas a Unitholder's investment in and distributions from the Fund will be made in Canadian dollars. Therefore, the amount of the distributions made by the Fund, as well as the dollar-denominated value of the Fund's portfolio investments and the NAV of the Fund, may be adversely affected by changes in the value of such local currency relative to the Canadian dollar. The value of Units or the value of the investments made by the Fund may also fluctuate as a result of the impact of economic and political changes on currency exchange rates.

Currency Hedging

While the Manager has and may continue to pursue hedging strategies in order to mitigate the risk of exchange rate fluctuations, there is no guarantee that such strategies will be successful. The Fund and Underlying Funds may enter into swaps, forward contracts and other arrangements to seek to preserve a return on a particular investment or to seek to protect against currency fluctuations. Such transactions have special risks associated with them, including the possible default by the counterparty to the transaction and the illiquidity of the instrument acquired by the Fund or an Underlying Fund relating thereto. Although such transactions may reduce the Fund's or the Underlying Fund's exposure to currency fluctuations or decreases in the value of investments due to currency fluctuations, the costs associated with these arrangements may reduce the returns that the Fund or an Underlying Fund would have otherwise achieved if it had not entered into these transactions.

Limited Information Regarding the Portfolio Companies

An Underlying Fund's portfolio may consist primarily of securities issued by privately held portfolio companies. There is generally little or no publicly available information about such companies, and the Underlying Funds must rely on the diligence of their own employees and the consultants they hire to obtain the information necessary for their decision to invest in them. There can be no assurance that the diligence efforts of the Underlying Funds will uncover all material information about the privately held business necessary for the Underlying Funds to make a fully informed investment decision.

Competitive Market for Investment Opportunities

The Underlying Funds compete with a large number of other private equity funds, mezzanine funds, investment banks and other equity and non-equity based Funds, and other sources of financing, including traditional financial services companies such as commercial banks. Competitors may have a lower cost of funds and may have access to funding sources that are not available to the Underlying Funds. In addition, certain competitors of the Underlying Funds may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships and build their market shares. There is no assurance that the competitive pressures faced by the Underlying Funds will not have a material adverse effect on their activities, financial condition and results of operations. Also, as a result of this competition, the Underlying Funds may not be able to take advantage of attractive investment opportunities from time to time and there can be no assurance that they will be able to identify and make investments. In addition to third parties, the Underlying Funds may compete against each other for investment opportunities.

Accounting and Disclosure Standards; Limited Information

The Underlying Funds may have or make investments in any part of the world, including in countries where accounting, auditing, financial and other reporting standards, practices and disclosure requirements are not equivalent to those in Canada, the United States and Europe and may differ in fundamental ways. Accordingly, information available to the Underlying Funds and, consequently, to the Fund, including both general economic and commercial information and information concerning specific enterprises or assets, may be less reliable and less detailed than information available in more economically sophisticated countries.

Illiquidity of Investments

Most, if not all, of the investments of the Underlying Funds will be highly illiquid, and there can be no assurance that any Underlying Fund will be able to realize on its investments in a timely manner or at all, which may also make the Underlying Investments difficult to value. Illiquidity may result from the absence of an established market for the investments as well as legal or contractual restrictions on their resale. In addition, private equity investments by their nature are often difficult or time consuming to liquidate.

Future Trading

Units are issued pursuant to exemptions from the prospectus requirement of applicable securities laws. Future trading in Units will need to be made in the exempt market as the Fund is not a reporting issuer. However, redemption of Units by Unitholders will also be exempt from the prospectus requirements of applicable securities laws.

Changes in Laws or Regulations

Additional laws may apply to the Underlying Funds and the portfolio companies that they hold. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on an Underlying Fund's business, investments and results of operations. In

addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on the business, investments and results of operations of the Underlying Funds. The Fund must comply with various legal requirements, including requirements imposed by Canadian, U.S. and foreign anti-money laundering laws, securities laws, commodities laws, tax laws and pension laws. Should any of those laws change over the term of the Fund, the legal requirements to which the Fund and the Unitholders may be subject could differ materially from current requirements. Furthermore, the Canadian and U.S. securities laws applicable to the Units, the Fund and the Manager are constantly under review by persons involved in the legislative process resulting in revisions of regulations and revised interpretations of established concepts as well as statutory changes. These laws may be modified by legislative, judicial or administrative action at any time. These revisions to the Canadian and U.S. securities laws and interpretations thereof and potential future revisions and interpretations could adversely affect the Units, the Fund or the Manager and, in that regard, could require modifications to the Fund's intended investment program or increase compliance costs of operating the Fund. Other jurisdictions, including Canada, are similarly reviewing their respective laws, regulations and policies with respect to private Funds and their investment advisers and any changes thereto may have an adverse effect on the Units, the Fund or the Manager.

Reliance upon Borrowed Funds

Because private equity investments rely on the use of leverage, the ability to achieve attractive rates of return on private equity investments will depend on the Underlying Funds' continued ability to access sources of debt financing at attractive rates. An increase in either the general levels of interest rates or in the risk spread demanded by lenders would make it more expensive to finance private equity investments. Increases in interest rates could also make it more difficult to locate and consummate private equity investments because other potential buyers, including operating companies acting as strategic buyers, may be able to bid for an asset at a higher price due to a lower overall cost of capital. Availability of capital from debt capital markets is subject to significant volatility and the Underlying Funds may not be able to access those markets at attractive rates, or at all, when completing a private equity investment. Any of the foregoing circumstances could have a material adverse effect on the financial condition and results of operations of the Underlying Funds.

Use of Leverage

The Manager has the discretion to use debt to fund obligations of the Fund. While there are limitations on the amount of debt that may be incurred by the Fund, the use of financial leverage adds financial risk to any investment. Underlying Funds may invest in highly leveraged companies which involves a high degree of risk. Some of the Underlying Funds' investments in portfolio companies may involve leverage, which in turn will increase the exposure of the portfolio companies to adverse economic factors such as downturns in the economy or deteriorations in the condition of the portfolio company or its industry. In the event any such portfolio company cannot generate adequate cash flow to meet debt service, the Underlying Fund may suffer a partial or total loss of capital invested in the portfolio company that, depending upon the size of the Underlying Fund's investments, could adversely affect the return of capital to the Fund. The Fund may also make direct investments in such companies and the Fund would be exposed to similar risks. In addition, the Fund may use leverage in making Underlying Investments which could expose the Fund to direct exposure to the risks associated with leveraged investing.

Investments in Less Established Companies

The Underlying Investments will include Underlying Funds that may invest in the securities of less established companies and may also include direct investments in such companies. Investments in such companies may involve greater risks than are generally associated with investments in more established companies.

Investment in Restructurings of Distressed Companies

The Underlying Funds may make investments in restructurings of distressed or non-performing companies or assets which involve a high degree of financial risk and are experiencing or are expected to experience severe financial difficulties, which may never be overcome.

Dependence on Key Management Personnel

The Fund's investment strategy is primarily focused on investing in underlying private equity funds managed by other fund managers. As such, the performance of the Fund's investments will depend upon the ability of the Underlying Fund managers to source, select, complete and realize appropriate investments. In the case of the Fund's international investment portfolio, reliance will be placed on fund managers managing private equity funds and funds of funds in which the Fund invests. The performance of these investments will in turn depend upon the managers of the underlying private equity funds and portfolio companies in which they invest.

Available Opportunities and Competitive Marketplace

The success of the Fund depends on the availability of appropriate investment opportunities and the ability of the Manager and Underlying Funds to identify, select, close and exit those investments. There can be no assurance that there will be a sufficient number of suitable investment opportunities to enable the Fund to invest all of its committed capital or that such investment opportunities will lead to completed investments by the Fund. The Fund and Underlying Funds will be competing with other private equity funds, as well as institutional investors and, potentially, strategic investors, for prospective investments. As a result of this competition, there can be no assurance that the Fund or Underlying Funds will be able to locate suitable investment opportunities, acquire such investments for an appropriate level of consideration, achieve its targeted rate of return or fully invest its committed capital.

Bridge Financing

The Fund may provide bridge financing in connection with one or more of its investments. The Fund will bear the risk of any changes in capital markets that may adversely affect the ability of a portfolio company to refinance any bridge investments. If such portfolio company were unable to complete a refinancing, the Fund could have a long-term investment in a junior debt security or a junior debt security that is convertible into equity.

Risks upon Dispositions of Investments

In connection with the disposition of an investment, the Fund may be required to make representations about the business and financial affairs of such investment typical of

those made in connection with the sale of a business. It may also be required to indemnify the purchasers of such investment to the extent that any such representation turns out to be inaccurate. These arrangements may result in contingent liabilities of the Fund, which might ultimately have to be funded by the Unitholders to the extent that such contingent liabilities exceed the reserves and other assets of the Fund and such Unitholders have received prior distributions from the Fund.

Distributions in Kind

Although, under normal circumstances, the Fund intends to make distributions in cash or in Units, it is possible that under certain circumstances (including the liquidation of the Fund) distributions may be made in kind and could consist of securities for which there is no readily available public market. Such securities may not be qualified investments for Registered Plans.

Recourse to the Fund's Assets

The Fund's assets, including any investments made by the Fund and any capital held by the Fund, are available to satisfy all liabilities and other obligations of the Fund. If the Fund itself becomes subject to a liability, parties seeking to have the liability satisfied may have recourse to the Fund's assets generally and not be limited to any particular asset, such as the investment giving rise to the liability.

Indemnification

The Manager and its respective officers, directors, agents, shareholders, partners and employees and affiliates will be entitled to indemnification from the Fund, except in certain circumstances as set out in the Management Agreement. The assets of the Fund will be available to satisfy these indemnification obligations, and Unitholders may be required to return distributions to satisfy such obligations. Such obligations will survive the dissolution of the Fund.

Risk Arising from Provision of Managerial Assistance

The Fund will sometimes designate Kensington officers, employees or representatives to serve on the boards of directors of portfolio companies. The designation of directors and other measures contemplated could expose the assets of the Fund to claims by a portfolio company, its security holders and its creditors. While The Manager's officers and employees intend to manage the Fund in a way that will minimize exposure to these risks, the possibility of successful claims cannot be precluded. In general, the Fund will indemnify the Manager and Kensington's officers, employees or representatives from such claims.

Environmental Liabilities

The Fund and Underlying Funds could face substantial risk of loss from environmental claims arising from investments made with undisclosed or unknown environmental problems or inadequate reserves or insurance for previously identified matters, as well as from occupational safety issues and concerns. Under certain circumstances, U.S. courts have held that a parent company is responsible for the environmental clean-up obligations of its subsidiary imposed by applicable laws. In the event that the Fund or an Underlying Fund is the parent of a portfolio company with such obligations, a U.S. court or a court of any other

applicable jurisdiction might find that the Fund or an Underlying Fund is liable for such obligations. Environmental claims with respect to a specific investment may exceed the value of such investment.

Effects of Bankruptcy

The Fund and Underlying Funds may make investments in portfolio companies that are or may become the subject of voluntary or involuntary bankruptcy or similar proceedings under applicable laws. Certain risks that are faced in bankruptcy or similar proceedings that must be factored into the investment decision include, for example, the potential total loss of any such investment. Upon confirmation of a plan of reorganization under applicable bankruptcy laws, or as a result of a liquidation proceeding, the Fund or Underlying Funds could suffer a loss of all or a part of the value of its investment in a portfolio company. A bankruptcy filing or similar proceeding may adversely and permanently affect a portfolio company. The portfolio company could lose market position and key employees, and the liquidation value of the portfolio company may not equal the liquidation value that was believed to exist prior to the making of the investment by the Fund or an Underlying Fund.

Investments in Middle-Market Companies

A component of the Fund's and Underlying Funds' investment strategy is to invest in mid-market companies. While investments in mid-market companies may present greater opportunities for growth, such investments may also entail larger risks than are customarily associated with investments in large companies. Medium-sized companies may have more limited product lines, markets and financial resources, and may be dependent on smaller management groups. As a result, such companies may be more vulnerable to general economic trends and to specific changes in markets and technology. In addition, future growth may be dependent on additional financing, which may not be available on acceptable terms when required. Further, there is ordinarily a more limited marketplace for the sale of interests in smaller, private companies, which may make realizations of gains more difficult, by requiring sales to other private investors. In addition, the relative illiquidity of private equity investments generally, and the somewhat greater illiquidity of private investments in small and medium-sized companies, could make it difficult for the Fund and Underlying Funds to react quickly to negative economic or political developments.

Minority Investments

The Fund and Underlying Funds may make minority equity investments in entities where the Fund and Underlying Funds do not participate in the management or otherwise control the business or affairs of such entities. The Manager will monitor the performance of each investment, however, it will be primarily the responsibility of the management of the portfolio company or manager of the Underlying Fund to operate such portfolio company or portfolio fund on a day-to-day basis. Although it is the intent of the Fund to invest in portfolio companies with strong operating management that has a successful track record, there can be no assurance that a portfolio company management team will be able to operate the portfolio company successfully.

Need for Follow-On Investments

Following its initial investment in a given portfolio company, the Fund may decide to provide additional funds to such portfolio company or may have the opportunity to increase

its investment in a successful portfolio company. There is no assurance that the Fund will make follow-on investments or that the Fund will have sufficient funds to make all or any of such investments. Any decision by the Fund not to make follow-on investments or its inability to make such investments may have a substantial negative effect on a portfolio company in need of such an investment or may result in a lost opportunity for the Fund to increase its participation in a successful operation.

Toehold Investments

The Fund or Underlying Funds may accumulate minority positions in the outstanding debt securities or in voting stock, or securities convertible into the voting stock, of potential portfolio companies. While the Manager will seek to achieve such accumulation through open market purchases, registered tender offers, negotiated transactions or private placements, the Manager may be unable to accumulate a sufficiently large position in a portfolio company to execute its strategy. In such circumstances, the Fund or Underlying Funds may dispose of their position in the portfolio company within a short time of acquiring it; there can be no assurance that the price at which the Fund or Underlying Funds can sell such securities will not have declined since the time of acquisition. Moreover, this may be exacerbated by the fact that securities of the companies that the Fund or Underlying Funds may target may be thinly traded and that the Fund's or Underlying Funds' positions may nevertheless have been substantial, although not controlling, and its disposal may depress the market price for such securities.

Investments in Public Companies

The Fund or Underlying Funds may invest in public companies or take private portfolio companies public. Investments in public companies may subject the Fund or Underlying Funds to risks that differ in type or degree from those involved with investments in privately held companies. Such risks include, without limitation, greater volatility in the valuation of such companies, increased obligations to disclose information regarding such companies, limitations on the ability of the Fund or Underlying Funds to dispose of such securities at certain times (including due to the possession by the Fund or Underlying Funds of material non-public information), increased likelihood of shareholder litigation against such companies' board members, which may include members of the Manager, regulatory action by the domestic or foreign securities regulators and increased costs associated with each of the aforementioned risks.

Unitholders Will Not Participate in Management of the Fund

Unitholders in the Fund will not have the right to participate in the management of the Fund or in decisions made by the Manager of the Fund on its behalf. As a result, Unitholders will have almost no control over their investments in the Fund or their prospects with respect thereto.

Legal, Tax and Regulatory Risks

The legal, tax and regulatory changes in Canada or in other countries where the Fund has direct or indirect investments could have an adverse effect on the Fund, its distributions or holders of Units. The legal, tax and regulatory considerations in Canada, and the legal, tax and regulatory considerations in other jurisdictions affecting the ability of the Fund to achieve its investment objective are complex and subject to change, which may affect the

performance of the Fund. In addition, other legal, tax and regulatory changes could occur during the term of the Fund that may adversely affect the Fund or the Unitholders. For example, from time to time, the market for private Fund transactions has been adversely affected by a decrease in the availability of senior and subordinated financing for transactions, in part in response to regulatory pressures on providers of financing to reduce or eliminate their exposure to such transactions. In addition, private Funds and their investment advisers may be subject to increased regulation, taxation or other scrutiny by regulators or other market participants. There can be no assurance as to whether any such scrutiny or initiatives will have an adverse impact on the private Fund industry generally or on the Fund or the Manager, including the ability of the Fund to take the measures necessary to effect operating improvements or restructurings of portfolio companies or otherwise achieve its objectives. Investors should seek independent legal and tax advice regarding the legal and tax implications of investing in the Fund.

Special Risks Associated with Offshore Investments

The Fund may invest a portion of its commitments in portfolio companies or Underlying Funds that are headquartered and have their principal operations outside the United States or Canada. These investments may involve special risks not typically associated with investments in securities of U.S. or Canadian issuers, including (i) economic and political factors, such as the risk of expropriation, restrictions on repatriation of profits, and political and social instability, (ii) differences between U.S. or Canadian and foreign securities markets, including the absence of uniform accounting, auditing, and financial reporting standards in foreign markets, the relatively greater price volatility and illiquidity of foreign securities markets, (iii) currency exchange risks, including the cost of converting investment cash flows from one currency into another, and (iv) tax-related issues, including the possibility of withholding taxes, confiscatory foreign taxes, and double taxation of income earned overseas.

Difficulty in Valuing Investment Portfolio

The Manager will value the investments of the Fund from time to time at their fair market values and in some cases will rely on the valuations of the general partners of its Underlying Funds. Assets that are publicly traded securities for which market prices are readily available will be valued based on their trading prices, however, for almost every investment, there will likely be no public market for its securities. Thus, the valuation of investments inherently is highly subjective and imprecise and requires the use of techniques that are costly and time consuming and ultimately provide no more than an estimate of value. In establishing the value of the Fund's investments, the Manager may also consult with accounting firms, investment banks and other third parties when needed, to assist with the valuation of the Fund's investments. The value set by the Manager may not reflect the price at which the Fund could dispose of its interests in a particular investment at any given time.

General Economic Conditions

The Underlying Funds may make investments in companies that are susceptible to economic recessions or downturns. During periods of adverse economic conditions, these companies may experience decreased revenues, financial losses, difficulty in obtaining access to financing and increased funding costs. During such periods, these companies may also have difficulty in expanding their businesses and operations and may be unable to meet their debt service obligations or other expenses as they become due. Any of the foregoing could cause

the value of an Underlying Fund's investments to decline. General economic conditions may affect the Fund's and Underlying Funds' activities. Interest rates, general levels of economic activity, the price of securities and participation by other investors in the financial markets may affect the value and number of investments made by the Fund or considered for prospective investment. U.S. and international market and economic conditions have been, and may continue to be, disrupted and volatile. The very large fiscal imbalances in the U.S. and many European countries, as well as concerns regarding the solvency of major banks in these regions, continues to add significant risk to the global economy, including currency risk. Global concerns about future economic growth, rising unemployment, lower consumer sentiment, market instability, inflationary pressures, fluctuating oil prices, the adverse developments in the credit markets and mixed corporate earnings present significant challenges to the national and global economies and equity markets presently and in the future. Any of the foregoing could have a material adverse impact on the Fund and Underlying Funds.

Management Fee; Fees for Services

The Fund will pay the management fee to the Manager of the Fund and will bear all expenses related to its operations. Such fees and expenses are expected to reduce the actual returns to Unitholders. Most of the fees and expenses will be paid regardless of whether the Fund produces positive investment returns. If the Fund does not produce significant positive investment returns, these fees and expenses could reduce the amount of the investment recovered by a Unitholder to an amount less than the amount invested in the Fund by such Unitholder. The Manager and its affiliates, officers, or employees may receive customary break-up and topping fees, commitment fees, monitoring and directors' fees and transaction, financing, divestment and other similar fees from portfolio companies as compensation for financial advisory and similar services ("Other Fees"). The management fee provisions and the arrangements relating to the allocation of Other Fees and certain fee offsets among the Manager and the Fund may also create an incentive to seek out investments which would provide the opportunity to earn such Other Fees and to make investments earlier during the term of the Fund than would be the case in the absence of such arrangements.

Manager Performance Fee

The existence of the Manager's Performance Fee may create an incentive for the Manager to make riskier or more speculative investments on behalf of the Fund than would be the case in the absence of these arrangements.

Diverse Investor Group

The investors may have conflicting investment, tax and other interests with respect to their investments in the Fund or another Kensington managed investment vehicle. The conflicting interests of individual investors and of the different investment vehicles may relate to or arise from, among other things, the nature of investments made by the Fund, the structuring or the acquisition of investments and the structure, timing or manner of disposition of investments. As a consequence, conflicts of interest may arise in connection with decisions made by the Manager, including with respect to the nature or structuring of investments or dispositions, that may be more beneficial for one investor or for one Kensington managed investment vehicle than for another investor or the Fund, especially with respect to investors' individual tax situations and tax treatment. In selecting and structuring investments appropriate for the Fund, the Manager will consider the investment and tax

objectives of the Fund and its investors as a whole, not the investment, tax or other objectives of any investor individually. In addition, it is anticipated that investors or their affiliates, who may be companies with significant business interests within the Fund's targeted industry sectors or insurance and other risk management companies, financial institutions and governmental or other pension plans, may have a direct or indirect interest in one or more of the investments of the Fund. This could result in the Fund becoming involved in disputes and litigation with one or more of its investors or affiliates.

Co-Investment Opportunities

The Manager or any of its affiliates may organize, make an investment in, or otherwise participate in, any vehicle formed to make co-investments with the Fund.

Operating Company Board Participation

It is expected that members of the Manager will serve as directors of certain of the portfolio companies and, as such, may have duties to persons other than the Fund. Although such positions in certain circumstances may be important to the Fund's investment strategy and may enhance the Manager's ability to manage investments, they may also have the effect of impairing the Fund's ability to sell the related securities when, and upon the terms, it may otherwise desire, and may subject the Manager and the Fund to claims they would not otherwise be subject to as an investor, including claims of breach of duty of loyalty, securities claims and other director-related claims. In general, the Fund will indemnify the Manager and its officers, employees and representatives from such claims.

Advisory Board

Although the Advisory Board is intended to act as the representative of the Unitholders in respect of certain matters, the Advisory Board may not have the same interests as all investors. Furthermore, the Advisory Board cannot be expected to be an expert in all matters presented to it, and certain of its determinations may, in fact, adversely affect the performance of the Fund.

No Separate Counsel

The Manager will engage legal counsel in connection with the Fund and the issuance of interests therein. The Manager's counsel will not represent, and will not be deemed to owe any obligations or duties to, any prospective investor or investors in connection with their investments in the Fund and the transactions contemplated hereby, whether or not such counsel have in the past represented or is currently representing such prospective investor with respect to other matters. Prospective investors are strongly urged to seek independent legal counsel with respect to an investment in the Fund.

Limited Remedies Against the Manager

The Management Agreement includes provisions for exculpation and indemnification of the Manager and its respective officers, directors, agents, shareholders, partners and employees and affiliates. Therefore, investors may have more limited rights of action than they would have absent such limitation.

Use of Placement Agents

The Manager may engage a placement agent for the Fund (the “Placement Agent”). The Placement Agent will act for the Fund and the Manager, and not as an investment adviser to prospective investors in connection with the offering of Units in the Fund. Prospective investors must independently evaluate the offering and make their own investment decisions. In making those decisions, prospective investors should be aware that a Placement Agent may be paid a placement fee based upon the amount of capital commitments to the Fund by investors that such placement agent introduces to the Manager or the Fund.

Cash Management Policy

Under the Fund’s cash management policy, the Fund invests in Liquid Investments which are expected to generate returns that are substantially lower than the returns the Fund anticipates receiving from Underlying Investments. There may also be a high degree of variability between the returns generated by different types of Liquid Investments.

Taxation of the Fund and Unitholders

There can be no assurance that Canadian federal income tax laws respecting the treatment of trusts or mutual fund trusts will not be changed in a manner that adversely affects the Fund or the Unitholders. If the Fund ceases to qualify as a “mutual fund trust” under the Tax Act, the income tax considerations described under the heading “Income Tax Considerations” would be materially and adversely different in certain respects.

Under the Tax Act, certain trusts or partnerships (defined as “SIFT trusts” and “SIFT partnerships”, respectively) the securities of which are listed or traded on a stock exchange or other public market and that hold one or more “non-portfolio properties” (as defined) are effectively taxed on income and capital gains in respect of such non-portfolio properties at combined rates comparable to the rates that apply to income earned and distributed by taxable Canadian corporations. Distributions of such income received by unitholders of SIFT trusts (and allocations of such income made to members of SIFT partnerships) are treated as eligible dividends from a taxable Canadian corporation. If the Fund were to qualify as a SIFT trust within the meaning of the Tax Act, the income tax considerations described under the heading “Income Tax Considerations” would be materially and adversely different in certain respects.

Certain issuers of securities included in the portfolio of the Fund may be SIFT trusts or SIFT partnerships. In such event, the after-tax returns realized by Unitholders may be reduced to the extent that the Fund receives distributions of income or capital gains from such SIFT trusts or SIFT partnerships.

The Fund may use derivative instruments in order to mitigate the risk of exchange rate fluctuations with respect to Underlying Investments that are denominated in a non-Canadian currency. Gains or losses realized on derivatives by virtue of the fluctuation of foreign currencies against the Canadian dollar will, where such derivatives and derivative forward agreements are sufficiently linked with, and hedge currency exposure in respect of, Underlying Investments held on capital account, be treated and reported for purposes of the Tax Act on capital account and designations will be made by the Fund and reported to Unitholders on this basis. If any dispositions or transactions of the Fund in respect of derivatives are reported on capital account but are subsequently determined to be on income account, the net income of the Fund for tax purposes and the taxable component of

distributions to Unitholders could increase. Any such redetermination by the CRA may result in the Fund being liable for unremitted withholding taxes on prior distributions made to Unitholders who were not resident in Canada for the purposes of the Tax Act at the time of the distribution. Such potential liability may reduce NAV, NAV per Unit and/or the trading prices of the Units.

The Fund may generally be subject to section 94.1 of the Tax Act if it holds or has an interest in an “offshore Fund property”. If applicable, these rules can result in the Fund including an amount in its income based on the cost of the Fund’s offshore Fund property multiplied by a prescribed interest rate. These rules would generally apply in a taxation year to the Fund if it could reasonably be concluded, having regard to all the circumstances, that one of the main reasons for the Fund acquiring, holding or having the investment in the entity that is an offshore Fund property, was to derive a benefit from the portfolio investments of the entity in such a manner that the taxes on the income, profits and gains therefrom, for any particular year were significantly less than the tax that would have been applicable if such income, profits and gains had been earned directly by the Fund. Any such amounts that may be required to be included in computing the Fund’s income in excess of expenses deductible by the Fund will be distributed to Unitholders and paid in Units. Income distributed in this manner will be included in the Unitholder’s income under the Tax Act and taxes may be payable in respect of such amounts notwithstanding that the Fund may not have made any cash distributions during the relevant period. There can be no assurance that the Fund will make cash distributions in a given year.

Fluctuation in Net Asset Value

The NAV per Unit will vary based on, among other things, the value of the Fund’s Liquid Investments, the value of the securities of the Underlying Funds and other Underlying Investments, the performance of the capital markets and commodities markets generally, foreign exchange rates and interest rates. Fluctuations in the values of the Fund’s investments may occur for a number of reasons beyond the control of the Manager. A substantial portion of the investments made by the Fund, including investments that are made through the Underlying Funds, will be in the form of investments for which no published market exists. The Manager will be required to make good faith determinations as to the fair value of these investments on a quarterly basis in connection with the calculation of NAV and the preparation of the Fund’s financial statements. In many cases, the Manager will be basing its determinations largely on fair value determinations made by the managers of the Underlying Funds. The process of valuing investments for which no published market exists is based on inherent uncertainties and the resulting values may differ from values that would have been used had a ready market existed for the investments and may differ from the prices at which the investments may be sold. As the price paid to redeeming Unitholders on a redemption is based on NAV per Unit, any uncertainty in the calculation of NAV may adversely affect such redeeming Unitholders or non-redeeming Unitholders.

Trading Price of Units

Units may trade in the market at a premium or a discount to the NAV per Unit of a class and there can be no assurance that the Units will trade at a price reflecting the NAV per Unit of a class.

Potential Conflicts of Interest

The Manager and its respective directors and officers and their respective affiliates and associates may engage in the promotion, management or investment management of, or may render advice to, the Kensington Private Funds and to any other account or fund that invests primarily in private equity fund securities. The Manager may have a conflict of interest in rendering advice to the Fund because the benefit the Manager and its managing directors may receive from managing Kensington Private Funds or some other accounts may exceed the benefit from managing the Fund's account, and, therefore, may provide an incentive to favour such other accounts. The Manager intends that any other such private equity investment mandates will be carried out in a manner that either enhances or is neutral to the investment performance of the Fund. See "Conflicts of Interest".

Allocation of investment opportunities between the Fund and a Kensington Private Fund and among different pools of capital managed by the Manager will be reviewed and approved by the Independent Review Committee, to ensure that the investment objective of the Fund is observed, and that the Fund is not adversely affected by other private equity investment activities of the Manager.

Although none of the directors or officers of the Manager will devote his or her full time to the activities and affairs of the Fund, each will devote as much time as is necessary to the management of the activities and affairs of the Fund. Although officers, directors and professional staff of the Manager will devote as much time to the Fund as the Manager deems appropriate to perform their respective duties in accordance with the Management Agreement, the Manager's investment personnel may have conflicts in allocating its time and services among the Fund's investment portfolio and the other investment portfolios managed by the Manager.

Status of the Fund for Securities Law Purposes

As of June 6, 2016, the Fund completed its transition to a corporate finance issuer and accordingly the Fund is not an "investment fund" for securities law purposes. The Fund is a reporting issuer in the provinces in British Columbia and Quebec and its disclosure documents are available at SEDAR.com.

MATERIAL CONTRACTS

The following contracts can reasonably be regarded as material to purchasers of Units:

- (a) the Amended and Restated Declaration of Trust dated as of June 6, 2016 described under "The Fund - Name and Formation"; and
- (b) the Amended and Restated Management Agreement dated as of June 6, 2016 described under "Management of the Fund - The Manager - Management Agreement".

CUSTODIAN

CIBC Mellon Trust Company (the "Custodian") provides custodial services to the Fund and holds the account to which the Fund transfers and deposits its earnings. The Custodian's offices are located at 320 Bay Street, Toronto, Ontario. The Custodian has appointed CIBC

Mellon Trust Company as its administrative agent to provide administrative services in connection with the custodial arrangements.

REGISTRAR AND TRANSFER AGENT

The registrar and transfer agent of the Fund is SGGG Fund Services Inc. The principal office of the registrar and the place where the securities register for the Units is kept is located at 60 Yonge Street, Suite 1200, Toronto, Ontario M5E 1H5.

AUDITOR

The auditors of the Fund are Deloitte LLP. The principal office of the auditors is 181 Bay Street, Suite 1400, Toronto, Ontario M5J 2V1.

ADDITIONAL INFORMATION

Additional information about the Fund is available in the Fund's management reports of fund performance and financial statements. Copies of these documents are available at no cost by calling (416) 362-9000 or toll-free at (855) 362 9329 or online at the Manager's website at www.kcpl.ca.
